RATIONALE FOR AGENDA ITEMS

1. Call to Order

The call is done to officially open the 2023 Annual Stockholders' Meeting of Omico Corporation (the "Corporation"). Pursuant to the Amended By-Laws of the Corporation, the meeting shall be presided over by the Chairman of the Board.

2. Certification of Notice and Quorum

The Corporate Secretary will certify the date when notices for the 2023 Annual Stockholders' Meeting were sent out to the stockholders of record. The Corporate Secretary will also certify to the existence of a quorum. Stockholders representing at least a majority of the outstanding capital stock, present in person or by proxy, shall constitute a quorum for the transaction of business.

3. Approval of the Minutes of the Annual Stockholders' Meeting held on May 27, 2022

A copy of the minutes is posted on the Corporation's website at <https://www.omico.com.ph/minutes-of-all-general-or-special-stockholders-meeting/> and will be presented to the stockholders for approval.

4. Presentation of Annual Report

The Report presents a summary of the performance of the Corporation in 2022. It includes the highlights of the Audited Financial Statements (AFS) of the Corporation which are incorporated in the Definitive Information Statement. Copies of the AFS were submitted to the Securities and Exchange Commission and the Bureau of Internal Revenue. The 2022 Annual Report may be accessed at the Company's website at <https://omico.com.ph/annual-reports/>.

5. Ratification of Acts and Proceedings of the Board of Directors and Management from May 27, 2022

All actions, proceedings and contracts entered into, as well as resolutions made and adopted by the Board of Directors and of Management from the date of the Stockholders' Meeting held on May 27, 2022 to the date of this meeting shall be presented to the stockholders for confirmation, approval and ratification.

6. Election of Directors for 2023 - 2024 (including the Independent Directors)

The nominees for directors for 2023 - 2024, including independent directors, will be presented to the stockholders for election. The profile of nominees will be provided in the Information Statement.

7. Appointment of External Auditor

The Audit Committee has pre-screened and recommended, and the Board has endorsed for the consideration of the stockholders, the re-appointment of R. R. Tan & Associates, CPAs as the Company's External Auditor for the fiscal year 2023.

8. Other Business

The Chairman of the Meeting will open the floor for comments and questions by the stockholders. Stockholders may raise such matters as may be relevant or appropriate to the occasion.

9. Adjournment

After consideration of all business, the Chairman shall declare the meeting adjourned. This formally ends the 2023 Annual Stockholders' Meeting of the Corporation.

OMICO CORPORATION
ANNUAL STOCKHOLDERS' MEETING FOR 2023

**PROCEDURES FOR PARTICIPATING IN THE MEETING AND
FOR VOTING THROUGH REMOTE COMMUNICATION OR *IN ABSENTIA***

Only stockholders of OMICO CORPORATION (“the Corporation”) as of April 27, 2023 (the “Eligible Stockholders”) are entitled to participate in the Annual Stockholders’ Meeting of the Corporation scheduled on May 26, 2023 (“the 2023 ASM”) and to vote on the matters to be presented during the ASM.

The procedure to facilitate the registration of Eligible Stockholders who are interested in participating in the 2023 ASM and voting is shown below:

1. Registration – Cut-off Dates

Eligible stockholders who intend to participate by attending the meeting through remote communication must register for the meeting by notifying the Corporation and providing the information and documents listed in Item No. 2 through email at corporatesecretary@omico.com.ph on or before 5:00p.m. on May 17, 2023. For purposes of determination of quorum, only Eligible Stockholders who have registered for the meeting on or before 5:00p.m. on May 17, 2023 will be considered in the computation of stockholders’ attendance.

Eligible stockholders who intend to cast their votes on any of the matters to be presented during the 2023 ASM must register by notifying the Corporation and providing information and documents listed in Item No. 2 on or before 5:00p.m. on May 17, 2023.

2. Requirements for Registration

Eligible stockholders must provide by email the information required and upload the documents needed to complete their registration:

a) For individual stockholders:

- i. Full name: First Name, Middle Name, Last Name
- ii. Birthdate
- iii. Address
- iv. Active email address
- v. Active mobile number and/or landline-phone number
- vi. Current photograph of the stockholder, with face fully visible
- vii. Valid/unexpired government-issued ID¹ of the stockholder containing a specimen signature of the stockholder

¹ Government-issued IDs include: Driver’s License, Passport, Unified Multi-Purpose ID (UMID), GSIS ID, PRC ID, IBP ID, iDOLE Card, OWWA ID, Comelec Voter’s ID, Senior Citizen’s ID.

- viii. Stockholders with joint accounts shall further submit a scanned copy of an authorization letter signed by all stockholders, identifying who among them is authorized to cast the vote for the account
- ix. Additional Documents:
If the stockholder holds “scripless shares” (or holds shares under PCD Participant/Brokers Account), a copy of the Broker’s Certification confirming the stockholder’s full account name and the corresponding number of shares owned as of April 27, 2023.

b) For corporate stockholders:

- i. Full name of the Company
- ii. Address
- iii. Active email address of the authorized representative
- iv. Active mobile number and/or landline-phone number of the authorized representative
- v. Scanned copy of a notarized Secretary’s Certificate in favor of the authorized representative of the corporate stockholder who is authorized to participate and vote
- vi. Current photograph of the Authorized Representative, with face fully visible
- vii. Valid/unexpired government-issued ID of the Authorized Representative containing a specimen signature of the authorized representative

3. Upon successful registration, the Office of the Corporate Secretary will send a confirmation email to stockholders whose respective accounts have been verified. The confirmation email will include the dedicated meeting link with password and a sample Voting Ballot/Proxy Form attached.

ONLY ELIGIBLE STOCKHOLDERS WHO HAVE REGISTERED FOR THE MEETING AS ABOVE-DESCRIBED ON OR BEFORE 5:00P.M. ON MAY 17, 2023 AND HAVE BEEN VALIDATED TO BE ELIGIBLE STOCKHOLDERS OF THE CORPORATION WILL BE CONSIDERED IN COMPUTING STOCKHOLDERS’ ATTENDANCE AT THE 2023 ASM AND FOR THE DETERMINATION OF QUORUM.

4. Voting Procedure and Voting Deadline

- a) Eligible Stockholders can only cast their votes on any of the matters to be presented during the 2023 ASM by way of Voting Ballot/Proxy Forms submitted on or before 5:00p.m. on May 17, 2023 (“Voting Deadline”). A sample Voting Ballot/Proxy Form is included in the Definitive Information Statement.

ONLY VOTING BALLOTS/PROXIES SIGNED BY THE ELIGIBLE STOCKHOLDER OR THE AUTHORIZED REPRESENTATIVE, AS THE CASE MAY BE, WHICH HAVE BEEN RECEIVED BY THE OFFICE OF THE CORPORATE SECRETARY ON OR BEFORE THE VOTING DEADLINE EITHER (i) BY DELIVERY OR MAIL TO SUITE 1109 EAST TOWER, TEKTITE TOWERS (Formerly: PSE CENTRE), EXCHANGE ROAD, ORTIGAS CENTER, PASIG CITY OR (ii) BY EMAIL SENT TO corporatesecretary@omico.com.ph SHALL BE COUNTED.

For the election of Directors, the Eligible Stockholder, or Authorized Representative or proxy, may vote for all nominees or cumulate his vote for one or some of the nominees, provided that the total number of allowable votes will not exceed the total number of shares held/owned by the Eligible Stockholder multiplied by 7 (i.e., the number of Board seats).

- b) For Eligible Stockholders holding “scripless shares” (or shares under PCD Participant/Brokers Account), the Stockholders must coordinate with their brokers for the execution of this type of proxy.
 - c) After the Voting Deadline, the Eligible Stockholder may no longer change or revise the vote cast. However, if the vote was cast by proxy, the Eligible Stockholder may revoke the entire proxy at least five (5) days prior to the 2023 ASM and in such case, the vote will not be counted.
 - d) The Corporate Secretary and the Corporation’s stock transfer agent will tabulate all votes received and validate the results.
5. The proceedings of the 2023 ASM will be recorded, subject to applicable provisions of the Revised Corporation Code.
 6. Stockholders who have questions or comments about the 2023 ASM or requests for clarification on the procedure for attending the 2023 ASM through remote communication, may send the questions, comments or requests by email to corporatesecretary@omico.com.ph.
 7. Data of each individual stockholder’s (or that of the corporate stockholder’s Authorized Representative) will be collected, stored, processed and used exclusively for the purposes of the 2023 ASM.

DATE OF TRANSMITTAL OF INFORMATION STATEMENT TO SECURITY HOLDERS

The approximate date on which the information statement will be sent to security holders is on **May 05, 2023**.

Item 2. DISSENTERS' RIGHT OF APPRAISAL

The matters to be voted upon in the Annual Stockholders' Meeting on **May 26, 2023** are not among the instances enumerated under Sections 41 and 80 of the Revised Corporation Code ("Revised Corporation Code") of the Philippines under which a stockholder may exercise his appraisal right.

Under Sections 80 to 85 of the Revised Corporation Code, any stockholder shall have the right of appraisal in certain circumstances where he has dissented and voted against a proposed corporate action, including:

- (a) In case an amendment to the articles of incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those outstanding shares of any class, or of extending or shortening the term of corporate existence;
- (b) In case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets as provided in the Revised Corporation Code;
- (c) In case of any merger or consolidation; and
- (d) In case of investment of corporate funds for any purpose other than the primary purpose of the corporation.

There are no matters or actions to be taken up at the Annual Stockholders' Meeting which may give rise to a possible exercise by stockholders of their appraisal rights under the Revised Corporation Code.

How Right is Exercised. –

The dissenting stockholder who votes against a proposed corporate action may exercise the right of appraisal by making a written demand on the corporation for the payment of the fair value of shares held within thirty (30) days from the date on which the vote was taken: *Provided*, that failure to make the demand within such period shall be deemed a waiver of the appraisal right. If the proposed corporate action is implemented, the corporation shall pay the stockholder, upon surrender of the certificate or certificates of stock representing the stockholder's shares, the fair value thereof as of the day before the vote was taken, excluding any appreciation or depreciation in anticipation of such corporate action.

If, within sixty (60) days from the approval of the corporate action by the stockholders, the withdrawing stockholder and the corporation cannot agree on the fair value of the shares, it shall be determined and appraised by three (3) disinterested persons, one of whom shall be named by the stockholder, another by the corporation, and the third by the two (2) thus chosen. The findings of the majority of the appraisers shall be final, and their award shall be paid by the corporation within thirty (30) days after such award is made: *Provided*, that no payment shall be made to any dissenting stockholder unless the corporation has unrestricted retained earnings in its books to cover such payment: *Provided, further*, that upon payment by the corporation of the agreed or awarded price, the stockholder shall forthwith transfer the shares to the corporation.

Item 3. INTEREST OF CERTAIN PERSONS IN OR OPPOSITION TO MATTERS TO BE ACTED UPON

- a) No person who has been a director or officer or nominee for election as director of the Company or associate of such persons, have substantial interest, director or indirect, in any matter to be acted upon, other than the election of directors for the year 2023 to 2024.
- b) The Company is not aware of any director or security holder who intends to oppose any action to be taken by the Company during the stockholders' meeting.

B. CONTROL AND COMPENSATION INFORMATION

Item 4. VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

As of March 31, 2023, the total number of outstanding shares of the Company is **1,050,461,673** Common Shares, which are entitled to one (1) vote each.

The number of foreign-owned shares as of March 31, 2023 is 35,751,876 which is equivalent to 3.40% of the total number of issued and outstanding common shares of 1,050,461,673.

All stockholders of record as of **April 27, 2023** are entitled to notice and to vote at the Annual Stockholders' Meeting.

With respect to election of directors, said stockholder may vote such number of shares and give one candidate as many votes as the number of directors to be elected multiplied by the number of his shares shall equal, or he may distribute them on the same principle among as many candidates as he shall see fit, provided, that the total number of votes cast by him shall not exceed the number of shares owned by him multiplied by the whole number of directors to be elected.

There has been NO CHANGE in the control of the Company since the beginning of its last fiscal year.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

Security Ownership of Certain Record and Beneficial Owners

Mr. Timothy K. Tia, Director, is the son of Mr. Tommy Kin Hing Tia and Ms. Anna Mei Nga Tia. Except for said relationships, there are no other family relationships known to the Company.

INVOLVEMENT IN CERTAIN LEGAL PROCEEDINGS

Aside from Mr. Tommy Kin Hing Tia, the Chairman, and Ms. Juana Lourdes M. Buyson, SVP-Treasurer, no other member of the Board of Directors or any other executive officer of the Corporation was involved during the past five (5) years and as of the date of filing of this report in any criminal, bankruptcy or insolvency investigations or proceedings against them.

On July 26, 2012, an Information for Obstruction of Justice under PD1829 with Criminal Case No. 468440-41-CR was filed against Mr. Tommy Kin Hing Tia and Ms. Juana Lourdes M. Buyson in the Branch 1 of the Metropolitan Trial Court ("MTC") of Manila.

This case stemmed from the informal complaint filed by Domingo Guevara in 2010 before the National Bureau of Investigation ("NBI") against the Board of Omico relative to the shelved Makati joint venture project with the Guevaras. In connection with their investigation, the NBI requested for documents related to Omico's increase in paid up capital in 1996. Omico submitted to the NBI the SEC Certificate of Increase of Capital Stock dated September 06, 1996 including the list of the sixteen (16) private placement investors consisting of individuals and stock brokers. Despite our submission of the said list, the NBI insisted that we submit a list of all individual investors, a list which is not in our possession and over which we do not have knowledge of.

On September 17, 2012, Omico, through Omico's legal counsel, received the Order dated August 28, 2012 from the MTC, Branch 1, Manila on Criminal Case No. 468440-41-CR dismissing the complaint for Obstruction of Justice under PD1829 filed against Mr. Tia and Ms. Buyson. A Motion for Reconsideration of the Order dismissing the complaint was likewise denied by the Court in its Resolution dated 19 November 2012. On February 25, 2013, an Order to submit comments was received from the Regional Trial Court ("RTC") of Manila, NCR, Branch 19 dated February 22, 2013 relative to the filing of a Petition for Certiorari with the said RTC. The RTC, in its Decision dated July 08, 2013, granted the Petition and ordered the reinstatement in the docket of the respondent court. Omico's legal counsel then filed a Motion for Reconsideration on August 02, 2013. On December 2, 2013 Omico received the Resolution from the RTC Branch 19, Manila denying the motion for reconsideration and reiterating its Order for the reinstatement of Criminal Case No. 468440-41 in the docket of the MTC, Branch 1, Manila. Upon demurrer to evidence, the MTC, Branch 1, Manila issued an Order dated August 29, 2014 on Criminal Case Nos. 468440-41-CR dismissing the case for Obstruction of Justice under PD1829 filed against Mr. Tia and Ms. Buyson. On January 10, 2015, a Petition for Certiorari was filed with the RTC, Branch 20, Manila. The Petition was denied for lack of merit as per RTC Branch 20, Manila Decision dated April 30, 2015. On August 26, 2015, a Notice of Appeal was filed by State Prosecutor Dayog with the RTC Branch 20, Manila. On August 18, 2016, a Decision was rendered by the Seventh Division of the Court of Appeals on CA G.R. SP No. 142194 for an appeal filed seeking to annul and set aside the Decision dated April 30, 2015 dismissing the Petitioner's Petition for Certiorari and Order dated July 30, 2015 denying Petitioner's Motion for Reconsideration rendered by Branch 20 of the RTC of Manila. The Court of Appeals granted the appeal of the Petitioner and ruled that the Decision dated April 30, 2015 rendered by Branch 20 of the RTC of Manila in SCA Case No. 15-132908 are Reversed and Set Aside. The Orders dated August 29, 2014 and November 05, 2014 rendered by Branch 1 of the MTC Manila are declared null and void and said cases are ordered Reinstated to the Court's docket for the continuation of proceedings. On July 10, 2019, the Supreme Court,

First Division, issued a Resolution on G.R. No. 231325 (People of the Philippines vs. Tommy Kin Hing Tia, et. al.) acting on the Office of the Solicitor General's motion for reconsideration of the Resolution dated January 21, 2019 which denied the petition for review on certiorari and considering that there is no substantial argument to warrant a modification of the Court's resolution, the Court resolved to Deny reconsideration with Finality.

On March 31, 2015, Ms. Juana Lourdes M. Buyson, SVP-Treasurer of Omico Corporation, filed with the Supreme Court Manila a Petition for the Disbarment of State Prosecutor Edwin S. Dayog for malicious, willful and oppressive acts of Prosecutor Edwin S. Dayog relative to the filing of Criminal Case No. 468441 for Obstruction of Justice under PD 1829 which was dismissed on August 29, 2014 by the MTC, Branch1, Manila for lack of evidence. On August 27, 2015, Edwin Dayog submitted his Comment on the Petition for Disbarment. In January 2016, Ms. Buyson submitted her Reply. On April 20, 2016, the Supreme Court issued a Notice stating that the case was being referred to the Integrated Bar of the Philippines for investigation report and recommendation within 90 days from receipt of the record. On June 29, 2018, the IBP, Board of Governors, Pasig City, rendered a Resolution wherein the complaint for Disbarment filed against Edwin Dayog was dismissed. On July 17, 2019, the Supreme Court First Division Manila issued a Resolution stating that the administrative case be considered closed and terminated.

No director or executive officer was involved during the past five (5) years and as of the date of filing of this report in any conviction by final judgment in any criminal proceeding, any order, judgment or decree of any court of competent jurisdiction permanently or temporarily enjoining, barring, suspending or otherwise limiting their involvement in any type of business, securities, commodities or banking activities, or in any proceeding involving violation of securities or commodities laws or regulations.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The significant transactions of the Company with related parties, as discussed in Note 23 *Related Party Transactions* of the Notes to the Financial Statements, are stated below:

- a) The Parent Company's advances to its subsidiaries represent cash advances for subsidiaries' operating expenses paid by the Parent Company. These advances are shown as part of Receivables in the Parent Company's statements of financial position. The outstanding balance amounted to PhP6,687,373, P6,681,801 and PhP6,641,032 as of December 31, 2022, 2021 and 2020, respectively. Full allowance for credit losses were provided in 2022, 2021 and 2020. These accounts were eliminated in full in the consolidated financial statements.
- b) The Parent Company's cash advances from its subsidiary in previous years are shown as Due to subsidiary in the Parent Company's statements of financial position. The outstanding balance amounted to PhP221,084,873 as of December 31, 2022, 2021 and 2020. This amount was eliminated in the consolidated financial statements.
- c) Total compensation given to key management personnel amounted to PhP6,243,014 in 2022 and PhP6,220,770 in 2021, respectively, and are shown as part of compensation and other employees' benefits account in the statements of comprehensive income.

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence which include affiliates.

Transactions with related parties, if any, are made at normal market prices. There have been no guarantees provided or received for any related party receivables or payables. Assessment is undertaken each financial year through examining the financial position of the related parties and the markets in which the related parties operate.

There are no transactions or proposed transactions during the last two years to which the company or its subsidiary was or is to be a party, in which a director, executive officer, or stockholder owns ten percent (10%) or more of total outstanding shares and members of their immediate families, had or is to have a direct or indirect material interest.

The Company or its related parties have no material transaction with parties falling outside the definition of “related parties” under the Philippine Accounting Standard No. 24 that are not available for other, more clearly independent parties on an arm’s length basis.

PARENT COMPANY

The Company has no parent company.

RESIGNATION OR DECLINATION TO STAND FOR RE-ELECTION OF A DIRECTOR

Since the Company’s last Annual Meeting of Stockholders held on May 27, 2022, no director has resigned or declined to stand for re-election because of disagreement with the Company on any matter relating to the Company’s operations, policies or practices.

LEGAL PROCEEDINGS

Omico Corp. vs. Municipality of Sto. Domingo, Nueva Ecija - Civil Case No. 66586 for a Sum of Money with Damages.

The complaint against the defendant Municipality for the recovery of the amount of PhP4,492,000.00 exclusive of interest, penalty and damages arising out of a contract entered into by the Company with the Municipality for the development of a housing project on the latter’s property was filed on December 5, 1997 with the Pasig City Regional Trial Court. A decision was rendered on September 18, 2004 by Judge Librado S. Correa dismissing the case. The decision of the Pasig City Regional Trial Court was elevated by the Company’s legal counsel before the Court of Appeals. On July 27, 2011, the Court of Appeals rendered a Decision partially granting the Company’s appeal by ordering defendant Municipality of Sto. Domingo to pay Omico PhP4,365,266.25 representing the value of the work accomplished. The Municipality of Sto. Domingo filed a Motion for Reconsideration and on February 08, 2012, the Court of Appeals denied the same. The Municipality of Sto. Domingo elevated the matter with the Supreme Court via a Petition for Review on Certiorari on March 16, 2012. In a Resolution dated July 06, 2015, the Supreme Court denied the instant Petition and affirmed the July 27, 2011 Decision and February 8, 2012 Resolution of the Court of Appeals ordering the Municipality of Sto. Domingo to pay Omico the amount of PhP4,365,266.25 representing the value of the work accomplished by Omico. On September 29, 2015, the Supreme Court issued an Entry of Judgment for the Resolution dated July 06, 2015. On June 22, 2016, the Records of the said case were transmitted back to the Regional Trial Court of Pasig City Branch 164. The Company’s legal counsel filed a Motion for Issuance of a Writ of Execution on July 21, 2016. On January 23, 2018, the service of the Writ of Execution to the Municipality of Sta. Domingo was successfully completed. Since the Municipality of Sto. Domingo has not complied with the Supreme Court Order, the Company’s legal counsel filed a Petition for Sum of Money with the Commission on Audit on August 01, 2019. The Municipality filed its Answer and then the Company filed a Reply. The Case is now submitted for Resolution and the Company will file a Motion for Early Resolution.

All employees of the Company, including officers, sign a standard engagement contract which states their compensation, benefits and privileges.

The Company does not have any special employment contracts or any compensatory plan or arrangement resulting from the resignation, retirement, or any other termination of an executive officer's employment with the Company or from a change in control of the Company except for such rights as may have already vested under the Company's retirement plan or as may be provided for under its standard benefits.

There were no bonuses, profit sharing, and other compensation given to directors and executive officers during the last two fiscal years.

Stock Warrants and Options Outstanding

There are no stock warrants or options outstanding.

During the Annual Stockholders' Meeting held on April 27, 2007, the stockholders owning or representing at least two thirds (2/3) of the outstanding capital stock approved the allocation of ten percent (10%) of the Company's outstanding capital stock for the grant of stock options to the Company's deserving employees, officers and board members which rules shall be determined by the Compensation Committee and approved by the Board of Directors. The terms and conditions governing the proposed stock option plan still has to be determined by the Company's Compensation Committee and approved by the Board of Directors.

D. OTHER MATTERS

Item 15. ACTION WITH RESPECT TO REPORTS

1) The following items shall be submitted to the stockholders for approval:

The Minutes of the Annual Stockholders' Meeting held on May 27, 2022 will be submitted for approval of the stockholders at the annual meeting to be held on May 26, 2023. Below is the summary of the items and/or resolutions approved at the Annual Stockholders' Meeting held on May 27, 2022:

- a) The 2022 Annual Stockholders' Meeting was called to order at 9:00a.m. by Mr. Tommy Kin Hing Tia, the Chairman of the Board of Directors of the Company.
- b) The Corporate Secretary certified that the Notice of the Annual Stockholders' Meeting together with other materials relevant for the meeting such as the Information Statement and the Annual Report/SEC Form 17-A for 2021 were distributed through the following methods: (1) by the publication of the Notice of the Meeting in the Daily Tribune and Malaya Business Insight on May 3 and May 4, 2022, in both print and online formats; (2) by disclosure to the PSE resulting in the posting of the Notice of Meeting, Information Statement and the other relevant materials on the PSE EDGE disclosure portal; and (3) by uploading the same documents on the website of the Corporation. These methods were in compliance with the Notice of the SEC dated March 16, 2021, which was issued by the SEC in order to provide publicly-listed companies an alternative mode of complying with the requirements for the distribution to its stockholders of notices and materials for their respective annual meeting. The Notice of the Meeting and other relevant materials were released on May 6, 2022 which is at least 21 days prior to the meeting date of May 27, 2022, in accordance with the Revised Corporation Code and applicable SEC regulations. Through the Notice of the Annual Meeting, stockholders were informed that the meeting would be conducted online by remote communication in lieu of physical meeting. The Information Statement included the *Procedures for Participating in the Meeting and for Voting Through Remote Communication or In Absentia*.

The Corporate Secretary reported that for purposes of determination of the meeting quorum, stockholders as of the meeting's Record Date of April 29, 2022 who registered for this meeting on or before May 18, 2022 at 5:00pm were considered in the computation of

stockholders' attendance. The stockholders who timely registered for this meeting hold a total of 602,063,017 common shares of the Company representing approximately 57.31% of the total issued and outstanding common shares as of April 29, 2022 of 1,050,461,673, and are therefore considered as present or represented in this meeting. Accordingly, the Corporate Secretary certified that a quorum for the annual meeting have been established.

- c) Upon motion duly made and seconded, the stockholders approved the minutes of the Annual Stockholders' Meeting held on May 28, 2021. The Corporate Secretary stated that the subject minutes were uploaded and posted on the Company's website several days after the meeting was held and available for inspection by any stockholders at the office of the Corporate Secretary. The Chairman provided the stockholders present at the meeting an opportunity to ask questions on the Minutes of the 2021 Annual Stockholders' Meeting, however, none was raised.
- d) The President of the Company presented the annual management report and Audited Financial Statements for the year ended December 31, 2021. She presented the highlights of the performance of the Company, the details of which were incorporated into the Company's annual report as distributed to the stockholders. The management report included a discussion on the operations, financial report and plans. The Chairman opened the floor for questions to be raised on the report on the Company's operations. He noted that the representatives of the Company's external auditor, R. R. Tan & Associates CPAs will be on hand to entertain questions on the Company's financial reports. No questions, however, were raised by the stockholders present on the report on the Company's operations and its Audited Financial Statements. No questions having been raised and upon motion duly made and seconded, the annual management report was duly noted and the Audited Financial Statements for the year ended December 31, 2021 was approved.
- e) Upon motion duly made and seconded, the stockholders approved, ratified and confirmed all acts and proceedings of the incumbent Board of Directors and Officers of the Company performed or undertaken from May 28, 2021 up to May 27, 2022. The Chairman opened the floor for questions or issues to be taken up pertaining to the ratification of all corporate acts and proceedings, however, no questions or issues were raised on the corporate acts and proceedings.

Resolutions, contracts, and acts of the Board of Directors and Management for ratification refer to those passed or undertaken by them during the year and for the day-to-day operations of the Company as contained or reflected in the minute books, annual report and financial statements. These acts are covered by resolutions of the Board of Directors duly adopted in the normal course of trade or business.

- f) The following were elected as directors of the Company:

Regular Directors:

Tommy Kin Hing Tia
Anson Chua Tiu Co
Anna Mei Nga Tia
Angel Severino Raul B. Ilagan, Jr.
Timothy K. Tia

Independent Directors:

Ricardo R. Blancaflor

Blancaflor is considered to be exempt from compliance with SEC Memorandum Circular No. 20, Series of 2013 which directs all key officers and members of the board of publicly-listed companies to attend, at least once a year, a program on corporate governance conducted by training providers that are duly accredited by the SEC.

Audit Committee Report for 2022

The Audit Committee Charter, which was approved by the Board on September 26, 2012, sets out the mandate, significance, membership, operations and functions of the Audit Committee of the Company and provides the guidelines which shall govern the performance of its duties and responsibilities. The provisions of the Audit Committee Charter have been complied with.

The Company has a Management Attestation Statement from the President/CEO and the Compliance Officer containing representations, among others, that a sound internal control and compliance system is in place and working effectively.

The Audit Committee, in fulfillment of its oversight responsibilities under the Code, has assisted the Board in the performance of its oversight responsibility for the financial reporting process, system of internal control/risk management systems, audit process and monitoring of compliance with applicable laws, rules and regulations.

On March 25, 2019, the Board of Directors, on the recommendation of the Audit Committee, approved the Amended Audit Committee Charter in compliance with the provisions of the SEC New Code of Corporate Governance as per SEC MC No. 19, Series of 2016 entitled “Code of Corporate Governance for Publicly-Listed Companies” and in accordance with the Company’s New Manual on Corporate Governance dated May 2017. The amendments include, among others, the other duties and responsibilities of the Audit Committee which are the performance of the functions of a Board Risk Oversight Committee that should be responsible for the oversight of the Company’s Enterprise Risk Management system to ensure its functionality and effectiveness and the performance of the functions of a Related Party Transactions Committee which is tasked with reviewing all material related party transactions of the Company.

Material Related Party Transactions (RPT) Rules

Pursuant to the SEC MC No. 10, Series of 2019, entitled “Rules on Material Related Party Transactions for Publicly-Listed Companies,” compliance to the SEC Material RPT Rules shall be mandatory for all Publicly-Listed Companies.

On October 08, 2019, pursuant to the SEC MC No. 10, Series of 2019, the Company submitted to the SEC a Policy on Material Related Party Transactions in accordance with the SEC Material RPT Rules.

SEC Requirement on the Submission of E-mail Addresses and Cellular Phone Numbers (SEC MC No. 28, Series of 2020)

On August 27, 2020, the SEC issued Memorandum Circular (MC) No. 28, Series of 2020, on the Requirement for Corporations, Partnerships, and Individuals to Create and/or Designate E-mail Account Address and Cellular Phone Number for Transactions with the SEC, which shall be submitted to the SEC within sixty (60) days from the effectivity of said rules.

In addition to the valid official e-mail address and official cellular phone number, every corporation, association, partnership, and person under the jurisdiction and supervision of the SEC shall also submit a valid alternate e-mail address and valid alternate cellular phone number. The submission of the e-mail addresses and cellular phone numbers shall be accompanied by a duly signed Certification of Authorization which shall state that the corporation, partnership, association, or person allows the SEC to send notices, letter-replies, orders, decisions, and/or other documents through the e-mail addresses and cellular phone numbers provided, for the purpose of complying with the notice requirement of administrative due process.

Pursuant to the SEC MC No. 28, Series of 2020, the Company submitted to the SEC the Company’s designated official e-mail address, official cellphone number, alternate e-mail address, alternate cellular phone number and the required Certification of Authorization on December 23, 2020.

(i) Known Trends, Events or Uncertainties Affecting Liquidity

The Company does not expect any trends, demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Company's liquidity increasing or decreasing in a material way.

Except for the current COVID-19 pandemic, the Company is not aware of any trends, demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Company's liquidity increasing or decreasing in a material way.

The company does not anticipate any cash flow or liquidity problems.

The company is not in default or breach of any note, loan, lease or other indebtedness or financing arrangement requiring payments.

The Company is evaluating possible business ventures in which it is allowed to engage under its articles of incorporation, to invest its sizeable cash and cash equivalent to provide additional sources of revenue and maximize investor return.

Impact of COVID-19 Pandemic on the Business Operations of the Company

The Company takes into consideration the following risks and impact of the COVID-19 pandemic on our business operations:

- Disruption and limitations in business activities due to the effect of COVID-19 on the health and safety of employees, workers, customers, suppliers, shareholders and other stakeholders and the implementation by the Government of preventive measures to contain and prevent the spread of COVID-19 such as community quarantine and travel restrictions;
- Delay in the implementation of planned development of new projects;
- Decrease in customers' demand for residential housing units due to economic downturn as an impact of COVID-19 outbreak;
- Delay in completion and delivery of residential housing units for our Santa Rosa Homes Project located in Sta. Rosa, Nueva Ecija due to probable supply chain interruptions in case of localized lockdown; and
- Inability to collect from the buyers of Sta. Rosa Homes housing units as they may not be able to timely fulfill their financial obligations due to the impact of COVID-19 pandemic.

The Company has implemented the following measures to reduce the risks of the COVID-19 pandemic and mitigate its impact on the Company's business operations:

- Observance of the guidelines issued by the Department of Health (DOH) regarding infection control and prevention of transmission of COVID-19 such as personal protection and hygiene, social distancing measures, environmental measures and food safety measures;
- Adherence to the Department of Labor and Employment (DOLE) advisories on the guidelines on COVID-19 prevention and control at the workplace and on the supplemental guidelines relative to remedial measures in view of the ongoing outbreak of COVID-19;
- Support of the Government's efforts and measures outlined to contain and control the spread of COVID-19 such as mandatory quarantine for affected areas, travel restrictions, and stringent social distancing measures;
- Determination of adequate construction supplies inventory for a sustained period and diversification of suppliers to mitigate supply chain disruptions;
- Review of the Company's business continuity plans to ensure that it can adequately address the risks associated with COVID-19 pandemic; and
- Assessment of the Company's liquidity and identification of causes that might significantly impair liquidity.

Different quarantine classifications were imposed nationwide which resulted to disruptions in business and economic activities and their impact on business continue to evolve. Internally, the Company continues to adapt to these including implementation of the following:

- Work-from-home arrangement for certain office and field personnel;
- Online meeting and discussion with client;
- Use of mobile banking and online platforms for certain financial transactions;
- Virtual annual stockholders' meeting and board meetings, subject to SEC Rules and Guidelines;
- Virtual board committee meetings.

Considering the evolving nature of this outbreak, the Company continues to monitor the situation and will take further actions as necessary and appropriate in response to these economic disruptions and other consequences.

(ii) Events That Will Trigger Direct or Contingent Financial Obligation

The Company does not expect any event that will trigger direct or contingent financial obligation that is material to the Company, including any default or acceleration of an obligation.

(iii) Material Off-Balance Sheet Transactions, Arrangements, Obligations

The Company has no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Company with unconsolidated entities or other persons created during the reporting period.

(iv) Capital Expenditures

There are no material commitments for capital expenditures for the next twelve months. However, the Company is evaluating possible business ventures, which may require capital expenditures.

(v) Known Trends, Events or Uncertainties Affecting Sales

Except for the current COVID-19 pandemic, the Company does not expect any trends, events or uncertainties that may have material favorable or unfavorable impact on sales or revenues.

(vi) Significant Elements of Income or Loss

73,654,707	65,197,538	8,457,169

The Company's financial assets at fair value through profit or loss consist of shares of stocks of publicly listed companies which are classified as held for trading.

The Company disposed certain shares of stock which resulted to a net gain of PhP58,838 and PhP3.3Million in 2022 and 2021, respectively. The Company recognized fair value loss of P9.11Million and P3.72Million in 2022 and 2021, respectively.

Increase in Receivables - Net - 61.861%

December 31, 2022	December 31, 2021	Increase/(Decrease)
34,317,962	21,202,123	13,115,839

The net increase in Receivables is mainly due to the increase in receivables on installment sales contract on the sale of Sta. Rosa Homes housing units and receivable from HDMF (Pag-IBIG Fund).

Installment contracts receivable on the sale of house and lots which pertains to Sta. Rosa Homes project are collectible in monthly installments for periods ranging from 3 to 7 years and bear an interest rate of 21% per annum computed on the diminishing balance, portion of which are covered with postdated checks.

For the years ended December 31, 2022 and 2021, interest income on installment accounts amounted to PhP1.38Million and PhP1.64Million, respectively.

Due from HDMF (Pag-IBIG Fund) represents portion of take-out proceeds on sale of real estate properties that were withheld in accordance with financing agreement with Home Development Mutual Fund.

Decrease in Real Estate for Sale - 29.730%

December 31, 2022	December 31, 2021	Increase/(Decrease)
14,421,256	35,811,261	(21,390,005)

The decrease in Real Estate for Sale is mainly due to the sale of Sta. Rosa Homes' housing units located in Sta. Rosa, Nueva Ecija and condominium units in The Wellington Courtyard, Tagaytay City, a joint venture project with RLC.

Real estate for sale, which is carried at cost, principally pertains to cost of raw land, property developments and other expenses related to construction and development of subdivision housing units. Construction and development costs include the cost of materials, labor and other related costs.

Increase in Prepayments and Other Current Assets – 10.989%

December 31, 2022	December 31, 2021	Increase/(Decrease)
3,470,283	3,126,688	343,595

The increase in Prepayments and Other Current Assets is mainly due to the increase prepaid taxes.

Increase in Installment Contract Receivable – net of current portion - 6.148%

December 31, 2022	December 31, 2021	Increase/(Decrease)
15,049,531	14,177,842	871,689

The increase in Installment Contract Receivable represents the increase in the non-current portion of installment contract receivable on the sale of housing units in the Company's Sta. Rosa Homes' project.

Increase in Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI) – 69.009%

December 31, 2022	December 31, 2021	Increase/(Decrease)
7,8378,090	4,637,090	3,200,000

Financial assets at fair value through other comprehensive income (FVOCI) increased from PhP4.64Million in 2021 to PhP7.84Million in 2022.

Unquoted equity investments comprise of equity interest in Macawiwili Gold Mining and Development Co., Inc. amounting to PhP337thousand in 2022 and 2021.

Other Financial Assets consist of golf club shares in Manila Southwoods and Tagaytay Midlands which share prices have increased from year 2021 to 2022. The fair values of these assets have been determined directly by reference to published prices in an active market.

The allowance for market adjustment amounting to PhP43.23Million and PhP46.43Million for 2022 and 2021, respectively, is shown under Equity as valuation reserve on FVOCI financial assets.

Decrease in Property and Equipment – Net – 13.243%

December 31, 2022	December 31, 2021	Increase/(Decrease)
2,795,917	3,222,687	(426,770)

The net decrease in Property and Equipment is mainly due to the provision for depreciation and acquisition of certain office equipments for the year 2022.

Decrease in Accounts Payable and Accrued Expenses – 15.233%

December 31, 2022	December 31, 2021	Increase/(Decrease)
14,219,051	16,774,197	(2,555,146)

The decrease in Accounts Payable and Accrued Expenses is mainly due to the decrease in customers' advances and deposits on the sale of Sta.Rosa Homes' housing units wherein the buyers' deposits were recognized as accounts payable.

Customers' advances pertain to funding from buyers of real estate for future application against transfer and registration fees and other taxes to be incurred upon transfer of properties to the buyer.

Customers' deposits represent collections from the buyers which have not reached the minimum required percentage of collections. These deposits will be recognized as revenue when the required percentage of collection is met.

Decrease in Accrued Retirement Liability – 21.776%

December 31, 2022	December 31, 2021	Increase/(Decrease)
11,782,730	15,062,812	(3,280,082)

The net decrease in Accrued Retirement Liability is mainly due to the payment of retirement expense and accrual of retirement benefits for the year 2022.

Accrued Retirement Liability pertains to the accrual of retirement benefits as required by the provisions of RA No. 7641 (Retirement Law). Under RA 7641, the Company is required to provide minimum retirement benefits to qualified employees.

Revenues and Expenses

Increase in Revenues – 27.764%

December 31, 2022	December 31, 2021	Increase/(Decrease)
50,486,392	39,515,396	10,970,996

The increase in Revenues is mainly due to the real estate sales of housing units in the Company's Sta. Rosa Homes housing project located in Sta. Rosa, Nueva Ecija and condominium units at The Wellington Courtyard, Tagaytay City, a joint venture project with RLC.

Increase in Cost and Expenses – 14.566%

December 31, 2021	December 31, 2021	Increase/(Decrease)
62,728,386	54,753,130	7,975,256

The increase in Cost and Expenses is mainly due to the increase in cost of real estate sales, administrative and selling expenses.

(viii) Seasonal Aspects

There are no seasonal aspects that will have material effect on the Company's financial condition or results of operations.

REVIEW OF PREVIOUS YEAR 2021 OPERATIONS

16,774,197	14,201,905	2,572,292

The increase in Accounts Payable and Accrued Expenses is mainly due to the increase in customers' advances and deposits on the sale of Sta.Rosa Homes' housing units wherein the buyers' deposits were recognized as accounts payable.

Customers' advances pertain to funding from buyers of real estate for future application against transfer and registration fees and other taxes to be incurred upon transfer of properties to the buyer.

Customers' deposits represent collections from the buyers which have not reached the minimum required percentage of collections. These deposits will be recognized as revenue when the required percentage of collection is met.

Increase in Accrued Retirement Liability - 11.398%

December 31, 2021	December 31, 2020	Increase/(Decrease)
15,062,812	13,521,612	1,541,200

The increase in Accrued Retirement Liability is mainly due to the accrual of retirement benefits for the year as required by the provisions of RA No. 7641 (Retirement Law). Under RA 7641, the Company is required to provide minimum retirement benefits to qualified employees.

Revenues and Expenses

Increase in Revenues – 18.499%

December 31, 2021	December 31, 2020	Increase/(Decrease)
39,515,396	33,346,687	6,168,709

The increase in Revenues is mainly due to the real estate sales of housing units in the Company's Sta. Rosa Homes housing project located in Sta. Rosa, Nueva Ecija and condominium unit at The Wellington Courtyard, Tagaytay City, a joint venture project with RLC.

Increase in Cost and Expenses - 15.724%

Causes for Material Changes in the Financial Statements

Balance Sheet (Financial Position) Accounts

Decrease in Cash and Cash Equivalents - 0.023%

December 31, 2020	December 31, 2019	Increase/(Decrease)
377,467,602	377,552,790	(85,188)

The net decrease in Cash and Cash Equivalents is mainly due to disbursements for development costs on the Company's Sta. Rosa Homes project and operating expenses which was partially offset by the proceeds from the sale of Sta. Rosa Homes housing units and interest income on deposits/placements with banks.

Cash accounts with banks generally earn interest at rates based on prevailing bank deposit rates. Short-term placements can be pre-terminated at any time and have average interest rates ranging from 0.10% to 1.00% and 0.125% to 3.50% per annum in 2020 and 2019, respectively.

Decrease in Financial Assets at Fair Value through Profit or Loss - 30.867%

December 31, 2020	December 31, 2019	Increase/(Decrease)
3,590,757	5,193,998	(1,603,241)

The Company's financial assets at fair value through profit or loss consist of shares of stocks of publicly listed companies which are classified as held for trading.

The Company recognized fair value gain of P9,026,184 in 2020 and fair value loss of P288,041 in 2019. The Company also disposed certain shares of stock which resulted to a net loss of P7,465,657 in 2020 and P1,482,441 net loss in 2018.

Decrease in Receivables - Net - 3.461%

December 31, 2020	December 31, 2019	Increase/(Decrease)
18,895,592	19,572,957	(677,365)

The net decrease in Receivables is mainly due to the decrease in receivables on installment sales contract on the sale of Sta. Rosa Homes housing units and lease contract.

Installment contracts receivable on the sale of house and lots which pertains to Sta. Rosa project are collectible in monthly installments for periods ranging from 3 to 7 years and bear an interest rate of 21% per annum computed on the diminishing balance. Portion of which are covered with postdated checks. For the years ended December 31, 2020, 2019 and 2018, interest income on these installment accounts amounted to P1,285,032, P1,179,844 and P1,215,934, respectively. Decrease in Real Estate for Sale - 14.010%

December 31, 2020	December 31, 2019	Increase/(Decrease)
50,304,691	58,500,882	(8,196,191)

The decrease in Real Estate for Sale is mainly due to the sale of Sta. Rosa Homes' housing units located in Sta. Rosa, Nueva Ecija. Real estate for sale of Sta. Rosa Homes' project, which is carried at cost, principally pertains to cost of raw land and property development and other expenses related to development and construction of the subdivision housing units. The cost of raw land includes its acquisition cost and expenses incurred to effect the transfer of title of the property to the Company. Development costs include the cost of construction, rehabilitation and other related costs.

With the termination of Joint Venture Agreement with Robinsons Land Corporation, a parcel of land in Tagaytay City, Cavite with a total area of 2,738 square meters ceased to meet the definition of inventory. The property with a carrying value of P12,116,785 was reclassified to investment property as it meets the definition of an investment property.

Increase in Prepayments and Other Current Assets - 32.091%

December 31, 2020	December 31, 2019	Increase/(Decrease)
3,058,042	2,315,109	742,933

The increase in Prepayments and Other Current Assets is mainly due to the increase in input value added tax and prepaid taxes.

Prepayments and Other Current Assets is composed of input value added tax, prepaid taxes, deposits and others. Input tax represents the 12% value added tax (VAT) on purchases of goods and services. Prepaid taxes consist of creditable withholding taxes at source.

Decrease in Installment Contract Receivable – net of current portion - 9.799%

December 31, 2020	December 31, 2019	Increase/(Decrease)
15,138,382	16,782,936	(1,644,554)

Increase in Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI) - 12.500%

December 31, 2020	December 31, 2019	Increase/(Decrease)
3,150,000	2,800,000	350,000

The increase in Financial Assets at Fair Value Through Other Comprehensive Income (FVOCI) is mainly due to the increase in market value of the golf club shares in Manila Southwoods.

This account consists of golf club shares in Manila Southwoods and Tagaytay Midlands. The fair values of these assets have been determined directly by reference to published prices in an active market.

Decrease in Property and Equipment – Net – 23.168%

December 31, 2020	December 31, 2019	Increase/(Decrease)
4,817,413	6,270,056	(1,452,643)

The decrease in Property and Equipment is mainly due to the disposal of certain transportation equipment in 2020 which resulted to a gain of P209,821.

Increase in Investment Properties - 0.893%

December 31, 2020	December 31, 2019	Increase/(Decrease)
166,781,025	165,304,759	1,476,266

The Company spent a total of P1,476,266 for regulatory clearance in 2020 for the Company's project located in Urdaneta City, Pangasinan.

Increase in Accounts Payable and Accrued Expenses - 9.740%

December 31, 2020	December 31, 2019	Increase/(Decrease)
14,201,905	12,941,390	1,260,515

The increase in Accounts Payable and Accrued Expenses is mainly due to the increase in customers' advances and deposits on the sale of Sta.Rosa Homes' housing units wherein the buyers' deposits were recognized as accounts payable.

Customers' advances pertain to funding from buyers of real estate for future application against transfer and registration fees and other taxes to be incurred upon transfer of properties to the buyer.

Customers' deposits represent collections from the buyers which have not reached the minimum required percentage of collections. These deposits will be recognized as revenue in the consolidated statement of comprehensive income when the required percentage of collection is met.

Increase in Accrued Retirement Liability - 13.577%

December 31, 2020	December 31, 2019	Increase/(Decrease)
13,521,612	11,905,199	1,616,413

The increase in Accrued Retirement Liability is mainly due to the accrual of retirement benefits for the year as required by the provisions of RA No. 7641 (Retirement Law). Under RA 7641, the Company is required to provide minimum retirement benefits to qualified employees.

Revenues and Expenses

Decrease in Revenues – 45.387%

December 31, 2020	December 31, 2019	Increase/(Decrease)
33,346,687	61,060,454	(27,713,767)

The net decrease in Revenues is mainly due to the decrease in sales of housing units on the Company's Sta. Rosa Homes housing project and decrease in investment and other income.

Decrease in Cost and Expenses - 33.743%

December 31, 2020	December 31, 2019	Increase/(Decrease)
47,313,598	71,409,154	(24,095,556)

The net decrease in Cost and Expenses is mainly due to the decrease in cost of real estate sales and administrative expenses.

STATUS AND PLAN OF OPERATION

The Company's main business activities are mining exploration and property development. The Company is licensed to operate, prospect, mine, and deal with all kinds of ores, metals and minerals. The Company is also engaged in the business of real estate development.

The mining exploration segment was previously engaged in the exploration activities of mine site while the property development segment is presently engaged in the marketing and sale of real estate and evaluation of future development of other real estate properties.

The Company's businesses are organized and managed separately according to the nature of products provided, with each segment representing a strategic business unit that offers different products and serves different markets. The Company's business is segregated into mining exploration and property development.

MINING EXPLORATION SEGMENT

Omico-Macawiwili Mining Project

The Company previously held a mining agreement with Macawiwili to operate and mine on several claim blocks located within the Baguio Gold District, in the municipality of Itogon, Benguet. The agreement which was signed on September 30, 1968 and extended on January 10, 1996 is effective until January 10, 2021. On August 29, 2012, the Company executed a Termination of Mining Agreement with Macawiwili wherein the Company is relinquishing all its rights and obligations under the mining agreement including the MPSA. With this Agreement, the Company has given the reins in managing the project to Macawiwili but remains an active minority investor in the venture.

Management decided to terminate the mining agreement with Macawiwili because Management would like to focus on other mining prospects/projects.

The Company is still interested in investing in mining and is scouting for other mining projects to explore, manage, operate or invest either solely or in partnership with other entities.

PROPERTY DEVELOPMENT SEGMENT

Ongoing Project – Sta. Rosa Homes, Sta. Rosa, Nueva Ecija

In December 2005, the Company launched the Sta. Rosa Homes project located in Bgy. Lourdes, Sta. Rosa, Nueva Ecija which is a 14.8-hectare residential project. When completed, the housing project will comprise 1,201 housing units with a balanced mix of single detached, single attached, duplex and rowhouse. The project will have complete community facilities which include underground drainage system, water and electrical distribution system, concrete road network, a clubhouse, parks and playgrounds. The Company is

presently engaged in the marketing and selling of the housing units and the financing options available to buyers are Pag-Ibig and In-House financing.

The estimated total development cost of the Sta. Rosa Homes project is PhP395.60Million. As of December 31, 2022, the carrying value of the Sta. Rosa Homes project representing site acquisition cost, housing unit construction, initial land development costs, land use conversion expenses, permits and licenses, net of housing units sold, amounted to PhP11.58Million. With the proceeds from the stock rights offering, the Company allocated PhP110.32Million for site preparation, road construction, drainage and power distribution system, house construction, project overhead, taxes and licenses. The balance for the completion of the development of the Sta. Rosa Homes project is expected to be sourced from internally-generated funds on the sale of the housing units and from credit facility with banks. The total sale from the Sta. Rosa Homes project when completed is estimated at PhP594Milion.

As of December 31, 2022, the Company sold or received reservation payments for 1,175 units, 701 units through Pag-Ibig housing scheme and 474 units through in-house financing. The total sales contract amount of the 1,175 units is PhP626.04Million. As of December 31, 2022, total collections on the sale of housing units amounted to PhP551.07Million including HDMF loan takeout proceeds amounting to PhP323.12Million.

The Home Development Mutual Fund (commonly known as Pag-Ibig Fund) approved a budget allocation/funding commitment line of PhP37.83Million for the year 2022 for the Company as an accredited developer in the Expanded Housing Loan Program of the Pag-IBIG Fund. On April 24, 2006, the Company was granted by the Board of Investments (BOI) a certificate of registration as a “New Developer of Mass Housing Project” for the Company’s Sta. Rosa Homes project. As registrant, the Company is entitled to Income Tax Holiday (ITH) for a period of four (4) years from June 2006. The ITH expired in May 2010.

Joint Venture Project – Tagaytay City Property

On December 21, 2006, the Company entered into a Joint Venture Agreement with Robinsons Land Corporation (“RLC”), as the Developer, whereby the Company contributed three (3) parcels of land located in Tagaytay City with approximate land area of 9,372 square meters. RLC will develop a high density two-phase residential subdivision, consisting of five (5) 5-storey residential condominium buildings. Under the agreement, the Company and the Developer shall share in the development of Phase 1, consisting of 2 Medium Rise Buildings with a land area of 2,606 square meters, by dividing the saleable floor area of the Phase 1 between them, hence, the Company will be entitled to a saleable floor area of 485.04 square meters equivalent to 9 units. The development of Phase 2, consisting of 3 Medium Rise Buildings with a land area of 4,028 square meters, shall also be undertaken by the Developer.

On May 14, 2009, the Company signed the Addendum to the Joint Venture Agreement with RLC for the development of Phase 2. The Company will be entitled to a saleable floor area of 801.19 square meters which is equivalent to 16 units.

The residential project, which is located at the corner of Mahogany Avenue and Mayor’s Drive, is named The Wellington Courtyard (“TWC”). As per RLC’s development plan, the project has a country-inspired courtyard community with amenities like a main swimming pool, a reflecting pool and wading pool, and a multipurpose open court sprawled at the center for sports and special events. Each of the five (5) buildings has a western style design. As of December 31, 2019, RLC has already accomplished 100% of the construction of Building A and B of Phase 1, Building C, D and E of Phase 2 and site development and amenities.

The carrying values of the property contributed, which pertains to parcels of land net of the cost of condominium units sold, amounted to PhP2.84Million as of December 31, 2022. The Company expects to generate PhP85.43Million from the sale of the Company’s share of condominium units in Phase 1 (9 units) and Phase 2 (16 units). The development of Phase 3 or the commercial strip, which will be located in front of the residential project, shall be undertaken by the Company. RLC will have no share in Phase 3.

As of December 31, 2022, twenty four (24) condominium units out of the total allocation of twenty five (25) units have already been sold under RLC's regular financing or lease-to-own program with a total selling price of PhP82.40Million of which PhP77.05Million were collected and remitted by RLC to the Company. Management has initiated some marketing effort, in coordination with RLC, to promote and augment the sale of the Company's assigned condominium units.

RLC has officially announced that all unsold units, except the model unit, in TWC may now be offered under the Straight Lease-to-Own program to promote and augment the sale of the TWC condominium units. It is essentially a lease-to-own payment scheme wherein 100% of the Total Contract Price will be payable in equal monthly payments for as long as 120 months (10 years), at 0% interest. Since this is a lease-to-own scheme, ownership of the unit will not transfer to the lessee-buyer unless the unit has been fully paid. RLC is also working on strategic plans and TWC is one of RLC's core/priority projects for sell-out considering that it is already a completed project.

On March 9, 2018, the Company entered into a Termination Agreement of the Joint Venture Agreement wherein RLC shall continue to manage the six (6) remaining condominium units enrolled under the Lease-to-Own Program of RLC. On March 16, 2018, the Company entered into a Memorandum Agreement with RLC for compensation for the excess developed area in the JV project wherein RLC will assign to the Company Parking Slot No. 14 in Building C of the TWC and waive payment of prior years' real property taxes amounting to PhP96,128.26.

Joint Venture Project – Urdaneta Property, Pangasinan

On August 30, 2022, Omico Corporation has executed a Rescission of the Memorandum of Agreement (MOA) on Property Development executed by Omico with Sta. Lucia Realty and Development Inc. ("SLRDI") on April 19, 2005 for the development of the Corporation's real properties with an aggregate area of more or less 23.25 hectares located in Pinmaludpod, Urdaneta, Pangasinan into a residential and/or commercial subdivision.

The MOA on Property Development executed on April 19, 2005 by Omico (as Landowner) with SLRDI (as Developer) provided for the development by SLRDI of the real properties of Omico with an aggregate area of more or less 23.25 hectares located in Pinmaludpod, Urdaneta, Pangasinan into a residential and/or commercial subdivision. As provided in the MOA for the development by SLRDI of the real properties of Omico, SLRDI shall be entitled to 55% of the developed saleable lots while the remaining 45% shall be retained by and remain with Omico. The other provisions in the MOA, include, among others, that expenses for the transfer of titles to SLRDI, as Developer, shall be for its account, including capital gains tax, documentary stamps, and VAT, if any. The saleable area pertaining to the parties shall be distributed by alternating two (2) or three (3) lots until the agreed distribution ratio of 55%/45% shall be achieved. In the aforementioned distribution, the percentages shall apply to the areas in square meters of the said developed saleable lots and not to the mere numbers of such lots. The "developed saleable lots" is understood to mean all lots remaining after deducting thirty percent (30%), more or less, from the total land area to be devoted to roads and open spaces as required by law. SLRDI, as the Developer, shall endeavor to maximize the saleable area to close to seventy percent (70%) of the project area.

Upon mutual agreement, Omico and SLRDI decided to rescind the originally executed MOA and hereby agreed to revoke, rescind, and declare of no force and effect the above-mentioned MOA with respect to the afore-mentioned properties of Omico. The rescission of the MOA shall take effect and to be enforced when duly executed. The decision made by both parties is to focus on their skills and resources on their respective real estate projects. With regards to Omico, it will be an opportune time to enhance Omico's capability to develop its real properties on its own, increase its revenues and maximize investor return.

The development of Omico's real properties is expected to be sourced from its cash reserves and internally-generated funds from the sale of housing units in Omico's Sta. Rosa Homes Project which is located in Sta. Rosa, Nueva Ecija.

The carrying amount of property contributed, which pertains to the parcel of land, amounted to PhP78.97Million as of December 31, 2022 and 2021.

On April 16, 2013, the Company filed the application for DAR Land Use Conversion (“DAR LUC”) for 4.68hectares which was approved by DAR on August 22, 2013 as per DARRO Conversion Order No. 08-2013-238. On May 17, 2017, the Company filed the application for DAR LUC from agricultural to residential use for 17.17hectares and on September 22, 2017, DAR conducted an on-site inspection and verification of the additional area being applied for land use conversion. DAR required the Company to place a bond amounting to PhP10,731,250, against any premature conversion activity or development on the subject property. The cash bond is refundable upon issuance of the order of conversion or convertible into performance bond at the Company’s option. On April 04, 2019, DAR issued DARCO Order No. CON-1904-1372 Series of 2019 for the Company’s application for DAR LUC from agricultural to residential use for the twelve (12) parcels of land with an aggregate area of 17.17hectares located in Barangay Pinmaludpod, Urdaneta City, Pangasinan. The Company has already submitted a request to DAR for the conversion of the Cash Bond of PhP10,731,250 into a Performance Bond.

Proposed Project – Baguio Homes, Bgy. Banangan, Sablan, Benguet

The Company is considering the development of one (1) of the two (2) investment properties located in Bgy, Banangan, Municipality of Sablan, Province of Benguet. The project will be called Baguio Homes and has an area of 6.6217 hectares located on the slopes of mountainside terrain with the majestic view of the Cordilleras. The average sloping terrain is about 18% making the area ideal for a housing project. The project is designed to cater to the low-cost housing needs of Metro Baguio. When completed, it will comprise a neighborhood of one hundred sixty (160) units of socialized houses and two hundred fifty three (253) units of single attached houses. The land had already been converted in the local level from agricultural to residential use.

The project will have complete community facilities which include concrete road network, underground and open canal drainage system, water and electrical distribution system, a clubhouse, parks and playgrounds. As of December 31, 2022, the Company had already infused in the Baguio Homes project a total amount of PhP16.37Million for land acquisition, maintenance, permits and licenses.

Other Investment Properties

Pasong Tamo, Makati Property

The Company is the registered owner of two (2) parcels of land located at the corner of Pasong Tamo Extension and EDSA, Makati City, evidenced by TCT Nos. 206902 and 203760 of the Registry of Deeds for Makati City. These properties were sold by the Guevent Investments and Development Corporation (GIDC) and Honeycomb Builders Inc. (HBI) to the Company. These two properties were separated by a property owned by GIDC and HBI situated between them, indicating an intent by the parties to have these parcels of land developed together with the properties of GIDC and HBI. The parties thus entered into a Joint Venture Agreement (“JVA”) in 1995 for the purpose. However, events that were not foreseen and beyond the control of the Company, including the 1997 Asian Financial Crisis, prevented the implementation of the JVA. This resulted in disputes between the parties to the JVA. GIDC threatened a civil suit demanding damages in the hundreds of millions. However, the company resisted the demand and threat and instead started negotiations for amicable settlement with GIDC. Thereafter, GIDC and HBI rescinded the JVA in 2008 and said rescission led to the filing of criminal cases against officers of the Company. However, negotiations for settlement continued between the parties. After several negotiations variously conducted spanning over a decade, the parties have come to an agreement that they must end their long-drawn dispute amicably and withdraw all cases that have been filed or initiated by GIDC and HBI against the officers of the Company. As a necessary consequence of the desire of the parties to settle their differences, the Company has agreed to sell back the subject properties upon terms mutually acceptable to both parties.

On June 10, 2017, the Company entered into a Memorandum of Agreement (MOA) and a Deed of Absolute Sale each for each of the two parcels of land, with GIDC and HBI for the sell back of the Company’s two (2)

parcels of land located at the corner of Pasong Tamo Extension and EDSA, Makati City, with TCT Nos. 203760 and 206902 of the Registry of Deeds of Makati City in favor GIDC and HBI for PhP177.0Million wherein the first tranche of PhP88.50Million was received in June 2017 and second tranche of PhP88.50Million in July 2017. The Company recognized a gain of PhP37.20Million from the sale transaction. The sell back is the culmination of years of negotiations to settle the disputes over the Joint Venture Agreement to develop the properties, among the parties, and free the investment of Omico Corporation for other projects.

Omico Pine Villas - Haddad Property, Sablan, Benguet

This property, which is situated in Bgy. Banangan, Municipality of Sablan, Province of Benguet with an area of 66,846 square meters, has a spectacular view of the Cordilleras, and as far away as Lingayen Gulf, the beaches of La Union and the South China Sea. The Haddad Property is being planned as an upscale vacation and residential community in Metro Baguio and will be named the Omico Pine Villas. The Company had commissioned Belt Collins Hawaii, a design firm based in Honolulu, in the design of the master plan of the Omico Pine Villas. The property had been granted by the DENR – Cordillera Administrative Region the ECC from agricultural to residential/commercial purposes. The carrying value of the Haddad Property in the books of the Company as of December 31, 2022 is PhP37.03Million.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Omico Corporation and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at December 31, 2022 and 2021, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for each of the three years in the period ended December 31, 2022, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2022 and 2021, and its consolidated financial performance and its consolidated cash flows for each of the three years in the period ended December 31, 2022, in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, the description of how our audit addressed the matter is provided in that context.

Revenue Recognition on Real Estate Sales and Determination of Cost of Real Estate Sales

The Group's revenue recognition process, policies and procedures on real estate sales are significant to our audit because these involve the application of significant judgment and estimation.

Real estate sales and cost of real estate sales amounted to P49,549,081 or 98.14% of total revenue and P30,789,626 or 50.30% of total cost and expenses, respectively, for the year ended December 31, 2022. The areas affected by revenue and cost recognition, which requires significant judgments and estimates, include determining when a contract will qualify for revenue recognition, particularly on the assessment of the probability of collecting the contract price; measuring the progress of the development of real estate projects which defines the amount of revenue to be recognized; and determining the amount of actual costs to be transferred out to cost of real estate sales. These areas were significant to our audit as an error in application of judgments and estimates could cause a material misstatement in the consolidated financial statements.

The Group's policy for revenue and cost recognition are fully described in Note 3 to the consolidated financial statements. The significant judgments applied and estimates used by management related to revenue recognition and real estate inventories are described in Note 5 to the consolidated financial statements. Real estate sales and cost of real estate sales are disclosed in Notes 19 and 20 to the consolidated financial statements.

Audit Procedures Conducted

We obtained an understanding of the Group's revenue recognition policy and the related processes and evaluated whether it is established and implemented consistent with the underlying principles of the applicable revenue recognition standard and is appropriate in the context of the Group's real estate transactions.

We evaluated the design effectiveness of implemented controls relevant to the recognition and measurement of revenues from real estate sales, tested the operating effectiveness of certain relevant controls, particularly those addressing the existence and occurrence of recognized sales.

We inspected pertinent documents giving rise to contract with identified customers, on a sample basis, which include contract-to-sell, disclosure statements detailing the terms of the sales contracts, and official receipts to determine whether the related real estate sales transactions occurred and were appropriately recognized based on the Group's revenue recognition policy.

We evaluated the assumptions of management in determining the amount of collection at which point the collectability of the receivables from real estate sales is reasonably assured. Evaluation of management's basis was made by comparing this to the historical analysis of sales cancellations from buyers with accumulated payments above the collection threshold.

In relation to cost of real estate sales, we obtained an understanding of the Group's cost accumulation process and performed tests of the relevant controls. On a sampling basis, we traced costs accumulated to supporting documents such as invoices, accomplishment reports and official receipts.

Going Concern Assessment

The Group has been incurring losses for the past years, as revenues are not enough to cover the cost of operations. While some of its investment properties may provide revenues, the same have become idle since management is still determining the most advantageous and profitable project. We consider this a key audit matter because a steady stream of revenues and cash, coupled with efforts in managing cost and expenses, will provide financial strength for the Group.

The investment properties for which housing projects are given due consideration and their corresponding fair values are disclosed in Note 15 to the consolidated financial statements.

Audit Procedures Conducted

We thoroughly discussed with management the prospect of launching real estate projects covering the Group's investment properties, which may include a joint venture operation with other property developers. To support management's assertion regarding its probability, we made on-site inspections of certain properties to determine the feasibility and marketability of real estate projects.

We also evaluated the appropriateness of management's determination of the disclosed fair value of investment properties. We have reviewed the reasonableness of the assumptions used to estimate the fair value of these investment properties by testing raw land's value by comparison with similar properties, verifying proposal to buy/sell the properties or adjacent properties thereto and verifying valuation inputs such as size, location, neighborhood and road network.

Other Information

Management is responsible for the other information. The other information comprises the SEC Form 17-A for the year ended December 31, 2022, but does not include the consolidated financial statements and our auditor's report, which we obtained prior to the date of this auditor's report, and the SEC Form 20-IS (Definitive Information Statement) and Annual Report for the year ended December 31, 2022, which are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged With Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

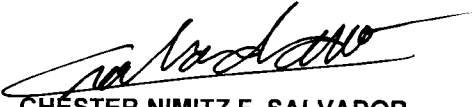

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Chester Nimitz F. Salvador.

OMICO CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2022, 2021 AND 2020

1. CORPORATE INFORMATION AND STATUS OF OPERATIONS

Corporate Information

Omico Corporation (the “Parent Company or the Company”) was incorporated in the Philippines and was registered with the Securities and Exchange Commission (“SEC”) on August 30, 1968. Its corporate term was extended to another fifty (50) years from and after the date of expiration of its first fifty (50)-year term on August 29, 2018, as per SEC Certificate of Filing of Amended Articles of Incorporation dated October 21, 2015. It holds 100% interest both in Omico Kapital Corporation, a subsidiary which ceased operations in 1997, and Omico Mining Inc. (*formerly Omico-Ivanhoe Mining Inc.*). The two subsidiaries have no commercial operation as of December 31, 2022 and 2021. The Parent Company listed its shares of stock in the Philippine Stock Exchange on May 2, 1969.

The Parent Company and Subsidiaries’ (the Group) main business activities are mining exploration and property development. It is licensed to operate, prospect, mine, and deal with all kinds of ores, metals and minerals.

The mining exploration segment is engaged in the exploration activities of mine site while the property development segment is engaged in the marketing and sale of real estate and evaluation of future development of other real estate properties.

The registered office of the Company is located at Suite 1109 East Tower, Tektite Towers, Exchange Road, Ortigas Center, Pasig City. Omico Corporation has no ultimate Parent Company.

The consolidated financial statements of the Group for the year ended December 31, 2022 with comparative figures for 2021 and 2020) were authorized for issue by the Company’s Board of Directors on March 22, 2023.

Status of Mining Operations

On August 29, 2012, the Parent Company terminated the Mining Agreement with Macawiwili Gold Mining and Development Co., Inc. (Macawiwili) entered in September 30, 1968. With this Agreement, the Parent Company has given the reins in managing the project to Macawiwili but remains an active minority investor in the venture.

Management decided to terminate the mining agreement with Macawiwili because Management would like to focus on other mining prospects/projects.

The Parent Company is still interested in investing in mining and is scouting for other mining projects to explore, manage, operate or invest either solely or in partnership with other entities.

2. STATEMENT OF COMPLIANCE, BASIS OF PREPARATION, PRESENTATION AND PRINCIPLE OF CONSOLIDATION

Statement of Compliance

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles as set forth in Philippine Financial Reporting Standards (PFRS), Philippine Accounting Standards (PAS) and Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC) issued by the Philippine Financial Reporting Standards Council and adopted by the SEC, including SEC pronouncements.

Basis of Financial Statements Preparation and Presentation

The consolidated financial statements have been prepared under the historical cost method except for:

- Financial instruments measured at amortized cost;
- Financial instruments which are valued at fair value; and
- Inventories at lower of cost and net realizable value (NRV)

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The consolidated financial statements are presented in Philippine Peso, the currency of the primary economic environment in which the Group operates. All values represent absolute amounts except when otherwise indicated.

The preparation of consolidated financial statements in conformity with PFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Group's accounting policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances.

Principle of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and entities it controlled (the subsidiaries) as of December 31, 2022 and 2021. A parent controls a subsidiary when it is exposed, or has rights, to variable returns from its involvement with a subsidiary and has the ability to affect those returns through its power over the subsidiary. Specifically, control is achieved only if a parent company has all the following;

- (i) Power over the investee;
- (ii) Exposure rights, to variable returns from its involvement with the subsidiary; and
- (iii) The ability to use its power over the investee to affect the amount of the parent company's returns.

The Parent Company reassesses whether or not it controls a subsidiary if facts and circumstances indicate that there are changes to one or more of the three elements of control.

The following are the subsidiaries and the respective percentages of ownership as of the period therein presented:

	% of ownership	
	2022	2021
Omico Kapital Corporation	100	100
Omico Mining Inc.	100	100

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Parent Company obtains control, and continue to be consolidated until the date when such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the Parent Company, using consistent accounting policies. All intra-group balances, transactions, unrealized gains and losses resulting from intra-group transactions and dividends are eliminated in full.

If a parent loses control of a subsidiary, the parent

- Derecognizes the assets and liabilities of the former subsidiary from the statement of financial position
- Recognize any investment retained in the former subsidiary at its fair value and subsequently accounts for it and for any of the amounts owed by or to the former subsidiary in accordance with applicable PFRS.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DISCLOSURES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Current versus non-current classification

The Group presents assets and liabilities in the consolidated statements of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading; or
- Expected to be realized within twelve months after the end of the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the end of the reporting period.

The Group classifies all other assets as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the end of the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the end of the reporting period.

The Group classifies all other liabilities as non-current.

Financial Instruments

Date of Recognition

Financial assets and financial liabilities are recognized in the consolidated statements of financial position of the Group when it becomes a party to the contractual provisions of the instrument.

Initial Recognition

All financial assets and financial liabilities are initially recognized at fair value. Except for financial assets and financial liabilities at FVPL, the initial measurement of these financial instruments includes transaction costs.

Determination of Fair Value

The fair value for instruments traded in active market at the reporting date is based on their quoted market price. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate techniques or comparison to similar instruments for which market observable prices exists.

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instruments or based on a valuation technique, the Group recognizes the difference between the transaction price and fair value in the statement of comprehensive income unless it qualifies for recognition as some other type of asset.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the consolidated statements of financial position.

Classification and Measurement of Financial Assets

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. Except for financial assets at FVPL, all financial assets are initially measured at fair value plus transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under PFRS 15.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

- Financial Assets at Amortized Cost

The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized or impaired.

The Group's financial assets at amortized cost includes cash and cash equivalents and receivables.

- Financial Assets at Fair Value through Other Comprehensive Income (FVOCI)

Equity instruments

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under *PAS 32 Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Subsequent to initial recognition, financial assets at FVOCI are carried at fair value. Gains and losses on these financial assets are never recycled to profit or loss. However, the Group may transfer the cumulative gain or loss within equity. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVOCI are not subject to impairment assessment.

Included in this category are the Group's quoted and unquoted equity investments. (see *Note 13*)

Debt instruments

A debt financial asset is measured at FVOCI if both of the following conditions are met:

- The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest income and foreign exchange

gains and losses are recognized in profit and loss until the financial asset is derecognized. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. This reflects the gain or loss that would have been recognized in profit or loss upon derecognition if the financial asset had been measured at amortized cost. Impairment is measured based on the expected credit loss (ECL) model.

As of December 31, 2022 and 2021, the Group does not have debt instruments at FVOCI.

- Financial Assets at Fair Value through Profit or Loss (FVPL)

Financial assets at FVPL include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at FVOCI, as described above, debt instruments may be designated at FVPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at FVPL are subsequently carried in the consolidated statement of financial position at fair value with net changes in fair value recognized in the consolidated statements of comprehensive income. Dividends are also recognized as other income in the consolidated statements of comprehensive income when the right of payment has been established.

As of December 31, 2022 and 2021, included in this category are the Group's equity investments listed in Philippine Stock Exchange.

Classification and Measurement of Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, interest-bearing loans, borrowings and other financial liabilities are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the consolidated statements of comprehensive income.

As of December 31, 2022 and 2021, included in this category are the Group's accounts payable and accrued expenses.

Reclassification of Financial Assets

The Group can only reclassify financial assets if the objective of its business model for managing those financial assets changes. Accordingly, the Group is required to reclassify financial assets:

- (i) from amortized cost to FVPL, if the objective of the business model changes so that the amortized cost criteria are no longer met; and,

- (ii) from FVPL to amortized cost, if the objective of the business model changes so that the amortized cost criteria start to be met and the characteristic of the instrument's contractual cash flows meet the amortized cost criteria.

A change in the objective of the Group's business model will be effected only at the beginning of the next reporting period following the change in the business model.

Impairment of Financial Assets

The Group recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms. ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL). For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established probability of default rates for third party trade receivables based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The Group applies the historical credit loss method in case undue cost or effort is involved in calculating the ECL by considering the forward-looking factors. For inter-group trade receivables, the Group has established probability of default rates based on internal credit rating of the customers. Internal credit ratings are based on methodologies adopted by independent credit rating agencies. Therefore, the internal ratings already consider forward looking information.

The Group considers a financial asset to be in default when contractual payments are 180 days past due. However, the Group considers internal or external information when there are indicators that the Parent Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Derecognition of Financial Instruments

Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized where:

- the rights to receive cash flows from the asset have expired;
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party.
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred the control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Cash and Cash Equivalents

Cash and cash equivalents are defined as cash on hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value. Cash and cash equivalents are initially measured at fair value.

Real Estate for Sale

Real estate for sale is carried at the lower of cost and net realizable value. Cost includes the value of land plus expenditures necessary to complete the housing units (materials and labor cost). Net realizable value is the estimated selling price in the ordinary course of business less cost to complete and sell the units. NRV is determined in a manner provided in Note 5. As of December 31, 2022 and 2021, real estate inventories are carried at cost.

Prepayments and Other Current Assets

Prepayments and other current assets consist of input taxes, prepaid expenses and deposits. They are carried at cost less the amortized portion.

Property and Equipment

Property and equipment are initially recognized at cost. The initial cost of property and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Property and equipment are subsequently stated at cost less accumulated depreciation and impairment loss, if any. Expenditures for additions, improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred. When assets are sold, retired or otherwise disposed of, their cost and related accumulated depreciation and impairment losses are removed from the accounts and any resulting gain or loss is reflected in income for the period.

Depreciation or amortization of an item of property and equipment begins when it becomes available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is computed using the straight-line method over the stipulated useful lives of the assets as follows:

	Estimated useful life
Condominium units and improvements	15-25 years
Office furniture, fixtures and office equipment	3-5 years
Transportation equipment	3-5 years

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values and estimated useful lives of property and equipment are reviewed, and adjusted if appropriate, at each reporting period.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the

carrying amount of the item) is included in the consolidated statements of comprehensive income in the year the item is derecognized.

Investment Properties

Investment properties consist of parcels of land that are held for future development or capital appreciation or both and that is not occupied by the Group. Investment properties are carried at cost and subsequently carried at cost, less accumulated impairment losses if any.

The Group's investment properties consist of parcels of land.

Investment properties are derecognized when either they have been disposed of, or when the investment property is permanently withdrawn from service and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statements of comprehensive income in the year of retirement or disposal.

Transfers are made to and from investment property when, and only when there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer is recorded using the carrying amount of the investment property at the date of change in use.

Joint Arrangements

For interests in jointly controlled assets, the Group recognized in its consolidated financial statements the assets that it controls/contributed and the liabilities that it incurs, and the related income and expenses from the sale/development of the assets. No adjustment or other consolidation procedures are required since the assets, liabilities, income and expenses of the joint operation are recognized in the financial statements of the operator.

Impairment of Non-financial Assets

The carrying values of property and equipment and investment properties are reviewed for impairment when events or changes in circumstances indicate that their carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash generating units are written down to their recoverable amount. The recoverable amount of property and equipment and investment is the greater of net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the consolidated statements of comprehensive income.

If there is any indication at end of the reporting period that an impairment loss recognized for an asset in prior years may no longer exist or may have decreased, the Group estimates the recoverable amount of that asset and the carrying amount of the asset is adjusted to the recoverable amount resulting in the reversal of the impairment loss.

Equity

Share capital is determined at the par value of shares that have been issued.

Additional paid-in capital includes any premiums received on the initial issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Fair value gain on FVOCI financial assets pertains to mark-to-market valuation of financial assets at fair value through other comprehensive income.

Deficit includes all current and prior period results of operations as disclosed in the consolidated statements of comprehensive income including changes in accounting standard in accordance with PAS 8.

Other comprehensive income comprises items of income and expenses (including items previously presented in the Consolidated Statement of Changes in Equity) that are not recognized in the consolidated statements of comprehensive income for the year in accordance with PFRS.

Earnings Per Share

Basic earnings per share is computed by dividing profit for the period by the weighted average number of shares issued and outstanding during the year.

Diluted EPS is computed by dividing the profit for the period by the weighted average number of shares issued and outstanding during the year plus the weighted average number of shares that would be issued on the conversion of dilutive potential shares.

Operating Segments

Operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses whose operating results are regularly reviewed by the chief operating decision maker to make decisions about how resources are to be allocated and for which discrete financial information is available. Financial information on operating segments is presented in Note 27.

Related Party Transactions

Parties are considered related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. The related party transactions are recognized based on transfer of resources or obligations between related parties, regardless whether a price is charged.

Revenue Recognition

Revenue from contracts with customers is recognized when control of the goods and services are transferred to the customer at transaction price. Transaction price is the amount that reflects the consideration to which the Group expects to be entitled to in exchange for those goods and services. The Group has generally concluded that it is the principal in its revenue arrangements because it typically controls the goods and services before transferring them to the customer.

The following specific recognition criteria must be met before revenue is recognized:

- **Real estate**
The Group derives its real estate revenue from sale of lots, house and lot and condominium units. Revenue from substantially completed real estate projects where collectability of sales price is reasonably assured is accounted for using the full accrual method. Collectability of the sales price is demonstrated by the buyer's commitment to pay, which in turn is supported by substantial initial and continuing investments that give the buyer a stake in the property sufficient that the risk of loss through default motivates the buyer to honor its obligation to the seller. Revenue from sale of real estate projects under pre-completion stage are recognized over time during the construction period using the Percentage of Completion (POC) method where the Group have material obligation under the sales contract to complete the project after the property is sold. In measuring the progress of its performance obligation over time, the Group uses output method. The Group recognizes revenue on the basis of direct measurements of the value to customers of the goods and services transferred to date, relative to the remaining goods and services promised under the contract. Progress is measured using survey performance completed to date.

Any excess of progress of work over the right to an amount of consideration that is unconditional, is recognized as installment contract receivables.

Any excess of collections over recognized receivables are included in the "Customers' advances and deposits" account.

If any of the criteria under full accrual or POC method is not met, the deposit method is applied until all the conditions for recording the sale are met. Pending recognition of sale, cash received from buyers are presented under "Customers' advances and deposits" account except when the underlying contract is a lease contract with option to purchase.

Penalties are recognized as income when cash is received and forfeitures from cancelled sales and reservation fees are recognized as income when the cancellation of sales and reservation fees of buyers has been determined and established.

- Investment income

Interest income is recognized as the interest accrues (taking into account the effective yield on the asset).

Dividend income is recognized when the shareholders' right to receive the payment is established.

Fair value gain (loss) represents all gain and losses for changes in fair values of financial assets at FVPL.

Realized gain (loss) in sale of shares of stock is recognized upon sale.

- Gains

Gains represent other items that meet the definition of income and may, or may not, arise in the course of ordinary activities of the Group. Gains represent increases in economic benefits and have the same nature as revenue. These are recognized as income when earned.

Costs Recognition

- Cost of real estate sales

Cost of real estate sales is recognized consistent with the revenue recognition method applied. Costs of subdivision lots and housing unit and condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land and its full development costs, which include estimated costs for future development works, as determined by the Group's in-house technical team.

The cost of inventory recognized in profit or loss on disposal is determined with reference to specific costs of the property. These costs are allocated to saleable area, with the portion allocable to the sold area being recognized as costs of sales while the portion allocable to the unsold area being recognized as part of real estate inventories.

- Administrative expense

Administrative expenses are recognized in the consolidated statement of comprehensive income when decrease in future economic benefit related to a decrease in an asset or decrease in a liability has arisen that can be measured reliably.

Administrative expenses are recognized in the consolidated statements of comprehensive income:

- (i) On the basis of a direct association between the costs incurred and the earning of specific items of income;
- (ii) On the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association can be broadly or indirectly determined; or
- (iii) Immediately when expenditures produce no future economic benefits or when, and to the extent that, future economic benefits do not qualify or cease to qualify, for recognition in the consolidated statement of financial position as an asset.

- Commission expense

The Group recognizes commission expense when services are rendered by agents. Commission expense is recognized upon receipt of certain level of payment from the buyer comprising a substantial portion of the contract price and the capacity to pay and credit worthiness of buyers have been reasonably established for sales of real estate.

Employee Benefits

Retirement Benefit Obligation

Pension benefits are provided to employees based on the amounts required by law, under R.A. 7641.

The Group has not yet established a formal retirement plan; however, it accrues the estimated cost of retirement benefits required by the provisions of RA No. 7641 (Retirement Law). Under RA 7641, the Group is required to provide minimum retirement benefits to qualified employees. The retirement cost accrued includes normal cost and estimated past service cost.

Short-term Employee Benefits

Salaries and wages are recognized in the consolidated statements of comprehensive income when the employees' services have been rendered to the Group.

Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group uses the definition of a lease in PFRS 16. This policy is applied to contracts entered into, on or after January 1, 2019.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset of the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case, the right-of-use asset will be depreciated over the useful life of the underlying asset which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payment that depends on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual guarantee; and
- The exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension, or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group used a number of practical expedients when applying PFRS 16 to leases previously classified as operating leases under PAS 17. In particular, the Group:

- Did not recognize right-of-use assets and liabilities for leases for which the lease term ends within 12 months from the date of initial application;
- Excluded initial direct costs from the measurement of the right-of-use asset at the date of initial application; and
- Used hindsight when determining the lease term.

Short-term Leases and Leases of Low-value Assets

The Group has elected not to recognize right-of-use assets and lease liabilities for the leases of low-value assets and short-term leases. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a Lessor

Leases where a significant portion of the risks and rewards of ownership over the asset are retained by the lessor, are classified as operating leases. Rental income on operating leases is recognized in profit or loss on a straight-line basis of accounting over the period of the lease.

Income Taxes

Current income tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of reporting period. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the consolidated statements of comprehensive income.

Deferred tax is provided, using the balance sheet liability method on temporary differences at the end of reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Under the balance sheet liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carry forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deferred tax asset is to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss in the consolidated statement of comprehensive income. Deferred tax items are recognized in relation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax relate to the same taxable entity and the same taxation authority.

Functional Currency and Foreign Currency Transactions

- *Functional and Presentation Currency*
Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). The consolidated financial statements are presented in Philippine pesos, which is the Group’s functional currency.
- *Transaction and Balances*
The accounting records of the Group are maintained in Philippine pesos. Foreign currency transactions during the year are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statements of comprehensive income.

Provisions

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes or onerous contracts.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of reporting period, including the risks and uncertainties associated with the present obligation. Any reimbursement expected to be received in the course of settlement of the present obligation is recognized, if virtually certain as a separate asset, not exceeding the amount of the related provision. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. In addition, long-term provisions are discounted to their present values, where time value of money is material.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resources as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the consolidated financial statements.

Probable inflows of economic benefits that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the consolidated financial statements.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

Events after the End of Reporting Period

The Group identifies subsequent events as events that occurred after the reporting period but before the date when the consolidated financial statements were authorized for issue. Any subsequent events that provide additional information about the Group’s financial position at the balance sheet date are reflected in the consolidated financial statements.

Events that are not adjusting events are disclosed in the notes to the consolidated financial statements when material.

4. CHANGES IN ACCOUNTING STANDARDS AND DISCLOSURES

New Accounting Standards and Amendments to Existing Standards Effective as of January 1, 2022

The accounting policies adopted are consistent with those of the previous financial year except for the adoption of the following amendments to PFRS effective beginning January 1, 2022. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these new standards did not have an impact on the consolidated financial statements of the Group.

Amendments to PFRS 3, Reference to the Conceptual Framework

The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, Business Combinations to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, Provisions, Contingent Liabilities and Contingent Assets or Philippine-IFRIC 21, Levies, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and must be applied prospectively.

Amendments to PAS 16, Property, Plant and Equipment – Proceeds before Intended Use

The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before the asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2 *Inventories*.

The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

For the sale of items that are not part of the Group's ordinary activities, the amendments require the company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the consolidated statement of comprehensive income. This disclosure is not required if such proceeds and costs are presented separately in the consolidated statement of comprehensive income.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments do not have significant impact on the Group's consolidated financial statements.

Amendments to PAS 37, Provisions, Contingent Liabilities and Contingent Assets – Onerous Contract: Cost of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts.

The amendments are effective for annual periods beginning on or after January 1, 2022. The amendments do not have significant impact on the Group's consolidated financial statements.

Annual Improvements to PFRSs (2018-2020 cycle)

The Annual Improvements to PFRSs (2018-2020 cycle) are effective for annual periods beginning or after January 1, 2022 and are not expected to have significant impact on the Group's consolidated financial statements.

- PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards, Subsidiary as a first-time adopter*
The amendment permits a subsidiary that applies paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent's date of transition to PFRSs.
- PFRS 9, *Financial Instruments, Fees in the '10 per cent' test for derecognition of financial liabilities*
The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in paragraph B3.3.6 of PFRS 9 in assessing whether to derecognize a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf.
- PFRS 16, *Leases, Lease incentives illustrative example*
The amendment to Illustrative Example 13 accompanying PFRS 16 removes from the example the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives are illustrated in that example.
- PAS 41, *Agriculture, Taxation in fair value measurements*
The amendment removes the requirement in paragraph 22 of PAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in PFRS 13.

New Accounting Standard, Amendments to Existing Standards and Interpretations Effective Subsequent to December 31, 2022

The standards, amendments and interpretations which have been issued but not yet effective as at December 31, 2022 are disclosed below. Except as otherwise indicated, the Group does not expect the adoption of the applicable new and amended PFRS to have a significant impact on its financial position or performance.

Effective beginning on or after January 1, 2023

Amendments to PAS 12, Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023. The amendments are not expected to have a material impact on the Group.

Amendments to PAS 8, *Definition of Accounting Estimates*

The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure of Accounting Policies*

The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies, and
- Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Group.

Effective beginning on or after January 1, 2024

Amendments to PAS 1, *Presentation of Financial Statements – Classification of Liabilities as Current or Non-current*

The amendments clarify paragraphs 69 to 76 of PAS 1, Presentation of Financial Statements, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024. The Group is currently assessing the impact the amendments will have on current practice.

Amendments to PFRS 16, *Leases - Lease Liability in a Sale and Leaseback*

The amendments clarify that the liability that arises from a sale and leaseback transaction, that satisfies the requirements of PFRS 15, Revenue from Contracts with Customers, to be accounted for as a sale, is a lease liability to which PFRS 16 applies and give rise to a right-of-use asset. For the subsequent measurement, the seller-lessee shall determine 'lease payments' or 'revised lease payments' in a way that the seller-lessee would not recognize any amount of the gain or loss that relates to the right of use retained by the seller-lessee. Applying this subsequent measurement does not prevent the seller-lessee from recognizing any gain or loss relating to the partial or full termination of lease. Any gain or loss to the partial of full termination of the lease does not relate to the right of use retained but to the right of use terminated.

The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and must be applied retrospectively. Early application is permitted. The amendments are not expected to have a material impact on the Parent Company's financial statements.

Effective beginning on or after January 1, 2025

PFRS 17, Insurance Contracts

PFRS 17 establishes the principles for the recognition, measurement, presentation, and disclosure of insurance contracts within the scope of the standard. The objective of PFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. This information gives a basis for users of the financial statements to assess the effect that insurance contracts have on the entity's financial position, financial performance, and cash flows.

The key principles in PFRS 17 are that an entity:

- Identifies as insurance contracts those contracts under which the entity accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder;
- Separates specified embedded derivatives, distinct investment components and distinct performance obligations from the insurance contracts;
- Divides the contracts into groups that it will recognize and measure;
- Recognizes and measures groups of insurance contracts at:
 - i. a risk-adjusted present value of the future cash flows (the fulfilment cash flows) that incorporates all of the available information about the fulfilment cash flows in a way that is consistent with observable market information; plus (if this value is a liability) or minus (if this value is an asset); or
 - ii. an amount representing the unearned profit in the group of contracts (the contractual service margin);
- Recognizes the profit from a group of insurance contracts over the period the entity provides insurance cover, and as the entity is released from risk. If a group of contracts is or becomes loss-making, an entity recognizes the loss immediately;
- Presents separately insurance revenue (that excludes the receipt of any investment component), insurance service expenses (that excludes the repayment of any investment components) and insurance finance income or expenses; and
- Discloses information to enable users of the financial statements to assess the effect that contracts within the scope of PFRS 17 have on the financial position, financial performance and cash flows of an entity.

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted. The new standard is not applicable to the Group since it has no activities that are predominantly connected with insurance or issue insurance contracts.

Deferred effectivity

PFRS 10, Consolidated Financial Statements and PAS 28, Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

These amendments address an acknowledged inconsistency between the requirements in PFRS 10 and those in PAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain

or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

These amendments are originally effective from annual periods beginning on or after January 1, 2016. This mandatory adoption date was later on deferred indefinitely pending the final outcome of the IASB's research project on International Accounting Standards 28. Adoption of these amendments when they become effective will not have any impact on the consolidated financial statements.

5. SUMMARY OF SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the consolidated financial statements in conformity with PFRS requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements. The judgments and estimates used in the consolidated financial statements are based upon management's evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from such estimates. Future events may occur which will cause the judgments and estimates used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements as they become reasonably determinable.

Judgments

In the process of applying the accounting policies of the Group, management has made the following judgments, apart from those involving estimations, which have the most significant effect on amounts recognized in the consolidated financial statements:

- *Determination of control* - The Parent Company controls an entity if and only if the Parent Company has (i) Power over the entity, (ii) Exposure or rights to variable returns from its involvement with the entity, and (iii) The ability to use its power over the entity to affect the amount of Parent Company's returns.

The Parent Company regularly reassesses whether it controls an investee when facts and circumstances indicate that there are changes to one or more elements of controls above.

As of December 31, 2022 and 2021, the Parent Company determined that it exercise control over its subsidiaries.

- *Assessment of joint arrangement* – The Group reviews the joint arrangement with its co-joint operators for any changes in facts and circumstances leading to the determination of joint control between joint operators. As of December 31, 2022, and 2021, Management has determined that its joint arrangements are in the nature of joint operation as guided by PFRS 11.
- *Recognition of deferred tax assets* – the Group review the carrying amounts at the end of each reporting period and adjust the balance of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized. As of December 31, 2022 and 2021, the Group did not recognize deferred tax asset amounting to P19.3 million and P20.5 million, respectively, since it does not expect to have sufficient profit against which the deferred tax asset can be utilized. (see Note 25)
- *Classification of financial instruments* – the Group classifies financial assets in their entirety based on the contractual cash flows characteristics of the financial assets and the Group's business model for managing the financial assets. The Group classifies its financial assets into the following measurement categories:
 - a. Financial assets measured at amortized cost;
 - b. Financial assets measured at fair value through profit or loss;
 - c. Financial assets measured at fair value through other comprehensive income, where cumulative gains or losses previously recognized are reclassified to profit or loss; and
 - d. Financial assets measured at fair value through other comprehensive income, where cumulative gains or losses previously recognized are not reclassified to profit or loss.

The Group determines the classification at initial recognition and re-evaluates this classification at every reporting date.

- *Classification of property* – The Group determines whether a property is classified as investment property or inventory as follows:
 - a. Investment property comprises land which are not occupied substantially for use by, or in the operations of the Group, nor for sale in the ordinary course of business, but are held primarily to earn rental income and capital appreciation.
 - b. Inventory comprises property that is held for sale in the ordinary course of business. Principally, this is residential property that the Group develops and intends to sell before or on completion of construction.
- *Revenue recognition* – Part of the assessment process of the Group before revenue recognition is to assess the probability that the Group will collect the consideration to which it will be entitled in exchange for the real estate property that will be transferred to the customer. In evaluating whether collectability of an amount of consideration is probable, the Group considers the significance of the customer's initial payments in relation to the total contract price. Collectability is also assessed by considering factors such as past history of customer, age and pricing of the property. Management regularly evaluates the historical cancellations and back-outs if it would still support its current threshold of customers' equity before commencing revenue recognition.
- *Litigations* – The Group is currently involved in some legal proceedings. While estimates have been developed on possible outcome of these cases, management believes that the ultimate outcome will not have a material effect on the consolidated financial statements. However, a change in underlying estimates could affect the consolidated financial statements in the future.

As of December 31, 2022 and 2021, there were no provisions for litigation in the accompanying consolidated financial statements.

Accounting Estimates

The key assumptions concerning the future and other key sources of estimation of uncertainty at the end of reporting period, that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

- *Determination of fair value of assets and liabilities*
The Group measures fair value of assets and liabilities using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Level 1

Included in the Level 1 category are assets and liabilities that are measured in whole or in part by reference to published quotes in an active market. Assets and liabilities are regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Level 2

Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)

Level 3

Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs)

Fair value measurement is discussed in Note 6.

- *Impairment of non-financial assets* – the Group assesses whether there are indications of impairment on its long-lived assets, at least on an annual basis. This requires an estimation of the value-in-use of the cash generating units to which the assets belong. Estimating the value-in-use requires the Group to make an estimate of the expected future cash flows from the cash generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows.
- *Provisions* – the Group provides for present obligations (legal or constructive) where it is probable that there will be an outflow of resources embodying economic benefits that will be required to settle said obligations. An estimate of the provisions is based on known information at end of the reporting period, net of any estimated amount that may be reimbursed to the Group. The amount of provision is being re-assessed at least on an annual basis to consider new relevant information.
- *Estimating useful lives and residual values of property and equipment* – the Group estimate the useful lives and residual values of property and equipment based on the internal technical evaluation and experience. Estimated lives of property and equipment are reviewed periodically and updated if expectations differ from previous estimates due to physical wear and tear, technical and commercial obsolescence and other limits on the use of the assets.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

	Estimated useful life
Condominium units and improvements	15-25 years
Office furniture, fixtures and office equipment	3-5 years
Transportation equipment	3-5 years

- *Estimating NRV of Real Estate Inventories* -The carrying value of real estate inventories is carried at lower of cost and NRV. The estimates used in determining NRV is dependent on the recoverability of its cost with reference to existing market prices, location or the recent market transactions. The amount and timing of recorded cost for any period would differ if different estimates were used.
- *Estimating retirement benefits cost* – the Group's retirement benefit cost is computed using the provisions of R.A. 7641. This entails using certain assumptions with respect to salary increases and employees' length of stay. (see Note 22)
- *Estimation of allowance for impairment loss on receivables* – The Group reviews its receivables at each reporting date to assess whether an allowance for impairment should be recorded in the consolidated statements of comprehensive income. The measurement of credit losses under PFRS 9 requires significant judgment, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowance.

6. FAIR VALUE MEASUREMENT

The fair value for assets and liabilities traded in active market at the reporting date is based on their quoted market price. For all other assets and liabilities not listed in an active market, the fair value is determined by using appropriate techniques or comparison to similar instruments for which market observable prices exists.

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instruments or based on a valuation technique, the Group recognizes the difference between the transaction price and fair value in the consolidated statements of comprehensive income unless it qualifies for recognition as some other type of asset.

Assets and liabilities measured at fair value and those which are not measured at fair value but fair value is required to be disclosed are categorized in a manner discussed in note 5.

The following table presents the summary of the Group's assets and liabilities measured or disclosed at fair value on a recurring or non-recurring basis recognized in the Consolidated Statements of Financial Position as of December 31, 2022 and 2021:

2022		Level 1		Level 2		Level 3
Assets						
Loans and receivables						
	Cash and cash equivalents*	P	-	P	300,331,359	P -

Liabilities						
	Accounts payable and accrued expenses	P	-	P	16,774,197	P -

* Amount is exclusive of cash on hand amounting to P30,000.

Fair values were determined as follows:

- Due to short-term nature of transactions of Cash and cash equivalents, receivables and accounts payable and accrued expenses, the fair values approximate the carrying amounts.
- Fair values of non-current installment contracts receivable were determined by discounting future cash flows at market prevailing interest rates.
- Fair values of FVPL financial assets were determined through the Philippine Stock Exchange.

- Fair values of quoted equity investments were determined using the quoted market prices at the end of reporting period.
- The fair values of unquoted equity investments were determined using market approach.
- Fair values of Investment properties under level 2 were determined by reference to the proposal to buy/sell the properties and adjacent properties thereto. Fair value of level 3 investment properties was determined using Sales comparison approach.

7. RISK MANAGEMENT OBJECTIVES AND POLICIES

Risk management framework

The Group's audit committee is responsible for the over-all effectiveness of risk management system. Furthermore, it is also the committee's purpose to lead the general evaluation and to provide assistance in the continuous improvement of the Group's risk management, control and governance processes. These functions also require that:

- Financial reports comply with established internal policies and procedures, pertinent accounting and auditing standards, and other regulatory requirements;
- Risks are properly identified, evaluated and managed, specifically in the areas of managing credit, market, liquidity, operational, legal and other risks;
- The BOD is properly assisted in the development of policies that would enhance the risk management.

Market Risk

Market risk is the risk of change in fair value of financial instruments from fluctuation in foreign exchange rates (currency risk), market interest rates (interest rate risk) and market prices (price risk), whether such change in price is caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

i. Foreign Currency Risk

The risk that the Group will face with respect to the unstable changes in foreign exchange particularly in US dollar. To minimize this risk, the Group maintains a considerable amount of cash and cash equivalents so as not to be affected by the fluctuation of Philippine peso vis-à-vis US dollar.

The Group's exposure to foreign currency risk pertains to its Dollar denominated cash and cash equivalents.

The following table demonstrates the sensitivity to a reasonable change in the US\$ exchange rate, with all other variables held constant, of the Group's income before tax and equity:

Increase/Decrease in Peso to US Dollar Rate	Effect on income before taxes				Effect on equity			
	2022		2021		2022		2021	
+P5.00	P	45,820	P	45,668	P	34,365	P	34,251
-P5.00		(45,820)		(45,668)		(34,365)		(34,251)

ii. Interest rate risk

As of December 31, 2022 and 2021, financial instruments subject to variable interest rate risk are as follows:

2022	Interest rate	Due in	
		1 year	2-5 years
Financial assets that are:			
Cash and cash equivalents	0.10%-6.00%	P 300,331,359	P -

2021	Interest rate	Due in	
		1 year	2-5 years
Financial assets that are:			
Cash and cash equivalents	0.10%-0.90% P	319,380,098 P	-

The table below demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's profit before tax:

		Increase/decrease in interest rates	Effect on profit before tax
Cash and cash equivalents	2022	+100 bps P	3,388,845
	2022	-100 bps	(3,388,845)
	2021	+100 bps	3,484,089
	2021	-100 bps	(3,484,089)

iii. Price risk

The Group's price risk exposure at year end relates to financial assets whose rates will fluctuate as a result of changes in market prices, principally, financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income.

Management monitors movements of equity price on a regular basis by assessing the expected changes in the different portfolios due to parallel movements of a 5% increase or decrease in market values.

The equity securities are classified as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income. Any increase and a decrease in the market values of stocks would result to an impact on the consolidated statements of comprehensive income and equity as follows:

% of change in market values	Impact on income		Impact on equity	
	2022	2021	2022	2021
+5%	P 3,682,735	3,204,902 P	P 3,993,715	3,382,749
-5%	(3,682,735)	(3,204,902)	(3,993,715)	(3,382,749)

Credit Risk

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown on the face of the consolidated statements of financial position (or in the detailed analysis provided in the notes to the consolidated financial statements). Credit risk, therefore, is only disclosed in circumstances where the maximum potential loss differs significantly from the financial asset's carrying amount.

The Group actively monitors its receivables to avoid significant concentrations of credit risk. They set a maximum limit on the amount that each employee can borrow. In addition, receivables from employees are subject to salary deductions.

The maximum exposure to credit risk at the end of reporting period is as follows:

	2022	2021
Cash and cash equivalents*	P 300,331,359	P 319,380,098
Receivables	49,367,493	35,379,965
Financial assets at fair value through profit or loss	90,037,667	72,466,188
Financial assets at FVOCI	51,070,000	51,070,000
Other non-current assets**	27,243,494	33,288,870
	P 518,050,013	P 511,585,121

* Amount is exclusive of cash on hand amounting to P30,000.

** Amount is exclusive of nonfinancial asset amounting to P302,935.

The tables below show the credit quality by class of financial assets as at December 31, 2022 and 2021:

High grade cash and cash equivalents are short-term placements and working cash fund placed, invested, or deposited in banks belonging to the top banks in the Philippines in terms of resources and profitability.

High grade accounts, other than cash and cash equivalents, are accounts considered to be of high value. The counterparties have a very remote likelihood of default and have consistently exhibited good paying habits.

Standard grade accounts are active accounts with propensity of deteriorating to mid-range age buckets. These accounts are typically not impaired as the counterparties generally respond to credit actions and update their payments accordingly.

Liquidity Risk

Liquidity or funding risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from either the inability

to sell financial assets quickly at their fair values; or counterparty failing on repayment of a contractual obligation; or inability to generate cash inflows as anticipated.

Liquidity risk is a risk due to uncertain liquidity. An institution may suffer liquidity problem when its credit rating falls. The Group is also exposed to liquidity risk if markets on which it depends on are subject to loss of liquidity.

The table below summarizes the maturity profile of the Group's financial liabilities as of December 31, 2022 and 2021, based on undiscounted contractual payments:

Belmonte, Sablan, Benguet	3,095,081
Tagaytay City, Cavite	12,116,785
	P 166,781,025

- The property held in Urdaneta City, Pangasinan, pending certain clearances from government agencies, will be a location of low and medium cost residential and commercial subdivisions in Urdaneta City. The Group spent a total of Pp1,476,266 for regulatory clearance in 2020. The same may be recovered once the joint venture operations commence.

Management determines that based on recent transactions and offers to buy/sell adjacent properties, the fair value of the property which is categorized as level 2 in the fair value hierarchy amounted to P752 million in 2022 and 2021.

- The Mayapyap property, which is situated in Brgy. Mayapyap Sur, Cabanatuan City, Nueva Ecija and located along the Maharlika National Highway, has an area of 41,271 square meters and has a fair value of P144 million in 2022 and 2021. The property has been re-classified as residential area by the local government, the highest and best use for the property. Development plans are being formulated for the property, which is beamed at the middle-income residential market. Fair value was determined by reference to the proposals to sell adjacent properties received from a certain seller which is categorized as level 2 in the fair value hierarchy.

- The Haddad property, which is situated in Brgy. Banangan, Municipality of Sablan, Province of Benguet with an area of 66,846 square meters, has a spectacular view of the Cordilleras, and as far away as Lingayen Gulf, the beaches of La Union and the West Philippine Sea. The Haddad Property is being planned as an upscale vacation and residential community in Metro Baguio and will be named the Omico Pine Villas.
- The Group is currently evaluating the development of the Bueno property located in Brgy, Banangan, Municipality of Sablan, Province of Benguet. The project will be called Baguio Homes and has an area of 66,217 square meters located on the slopes of mountainside terrain with the majestic view of the Cordilleras. The project is designed to cater to the low-cost housing needs of Metro Baguio, the highest and best use of the property. The land had already been converted in the local level from agricultural to residential use.
- The Belmonte property, which is situated in Dackes, Brgy. Banangan, Municipality of Sablan, Province of Benguet and located along Naguilian Road, Baguio City has an area of 23,624 square meters.

The aggregate fair value of the Sablan, Benguet (Haddad, Bueno and Belmonte) properties is estimated to be P58 million in 2022 and 2021, determined under level 3 in the fair value hierarchy. The value was determined in consultation with real estate brokers operating within the Baguio district which management believes to be a representative of its fair value.

- The Tagaytay property, which is situated in Kaybagal South, Tagaytay City, Cavite has an area of 2,738 square meters. The Group plans to build a low-rise building with 5 floors, with commercial spaces at the ground floor and hotel and Airbnb rooms at the second to fifth floors. Management determines that based on recent transactions and offers to buy/sell adjacent properties, the fair value of the property which is categorized as level 2 in the fair value hierarchy amounted to P96 million in 2022 and 2021.

The description of valuation techniques and inputs used in determining the fair value of investment properties classified as Level 3 in the fair value hierarchy is as follows:

<u>Valuation techniques</u>	<u>Significant unobservable inputs</u>	<u>Range</u>
Sales comparison approach	Asking price (per square meter) Size Location Neighborhood Transport/Road network	P200-P450

Sales comparison approach is a comparative approach to value that considers the sales of similar or substitute properties and related market data and establishes a value estimate by processes involving comparison. Except for asking price, the quantitative information on significant unobservable inputs cannot be determined by management alone.

During 2022 and 2021, there were no transfers between levels of fair value hierarchy. No property has been pledged as collateral or security for any of the Group's liabilities and there have been no restrictions on the realizability of these investment properties. Except for properties that are subject of a joint venture, no contractual obligations to purchase, construct or develop these properties or for repairs, maintenance or enhancements.

There was no rental income generated from investment properties. Direct operating expenses included in the consolidated statements of comprehensive income related to the investment properties amounted to P0.36 million, P0.46 million and P0.42 million in 2022, 2021 and 2020, respectively.

the amount computed using the projected unit credit method required under the revised PAS 19, *Employee Benefits*.

23. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence which include affiliates.

Transactions with related parties, if any, are made at normal market prices. Outstanding balances at yearend are unsecured, non-interest bearing and settlement occurs in cash, unless otherwise indicated. There have been no guarantees provided or received for any related party receivables or payables. Assessment is undertaken each financial year by examining the financial position of the related parties and the markets in which the related parties operate.

The following tables provide the total amount of transactions that have been entered into with related parties and the outstanding balances as of December 31, 2022, 2021 and 2020:

25. INCOME TAXES

- Income tax expense for the years ended December 31, 2022, 2021 and 2020 is broken down as follows:

		2022		2021		2020
MCIT	P	204,924	P	116,456	P	97,258
Final tax		1,278,004		790,476		1,687,824
	P	1,482,928	P	906,932	P	1,785,082

- The Group's reconciliation of tax on pretax income from operation computed at the applicable statutory rates to tax expense are as follows:

		2022		2021		2020
Statutory income tax	P	(2,689,825)	P	(3,582,701)	P	(3,759,549)
Adjustments resulting from:						
Income subjected to final taxes		(1,441,412)		(691,085)		(1,073,412)
Income exempt from income tax		(632,214)		(221,037)		(33,330)
Non-deductible expenses		3,073,243		1,859,559		1,108,167
Effect of unrecognized deductible temporary differences		3,173,136		3,542,196		5,543,206
Tax expense reported in the statements of comprehensive income	P	1,482,928	P	906,932	P	1,785,082

- The Group did not recognize the balance of the deferred tax assets on net operating loss carry over (NOLCO), excess MCIT and other temporary differences because management believes that the related deferred tax assets may not be recovered. The breakdown of deferred tax assets, which can still be applied if the Group has taxable income in the future, are as follows:

	2022	2021
Allowance for impairment losses	P 4,784,322	P 4,833,390
Accrued retirement	2,945,682	3,765,703
Excess MCIT	418,638	363,648
Net operating loss carryover (NOLCO)	11,190,390	11,505,520
	P 19,339,032	P 20,468,261

- The carry-forward benefits of the NOLCO and the excess of the MCIT over the regular corporate income tax, which can be claimed by the Group as credits against the regular corporate income tax due, are as follows:

NOLCO							
Year Incurred		Amount	Applied Previous Year	Expired	Remaining Balance	Expiry

NOLCO

On September 30, 2020, the BIR issued Revenue Regulations No. 25-2020 implementing Section 4(bbbb) of "Bayanihan to Recover As One Act" which provide that the NOLCO incurred for taxable years 2020 and 2021 can be carried over and claimed as a deduction from gross income for the next five (5) consecutive taxable years immediately following the year of such loss.

Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act

On February 1, 2021, the Bicameral Conference Committee, approved the House Bill No. 4157 and Senate Bill No.1357 (the CREATE) which seeks to reduce the corporate income tax rates and to rationalize the current fiscal incentives by making it time-bound, targeted and performance-based. CREATE pursues to dynamically fight the effects of COVID-19 and help businesses to recover as quickly as possible.

Among the reforms provided under CREATE Act are the following:

- (i) Reduction in Corporate Income Tax rate effective July 1, 2020 as follows:
 - Those with assets amounting to P100,000,000 and below, and with taxable income equivalent to P5,000,000 and below will be subjected to a 20% tax rate;
 - Those with assets above P100,000,000 or those with taxable income amounting to more than P5,000,000 will be subjected to a 25% tax rate.
- (ii) Effective July 1, 2020 until June 30, 2023, the MCIT rate shall be one percent (1%).

26. JOINT ARRANGEMENTS

Sta. Lucia Realty and Development, Inc. (SLRDI)

On August 30, 2022, Omico Corporation (“Omico” or the “Corporation”) has executed a Rescission of the Memorandum of Agreement (MOA) on Property Development executed by Omico with Sta. Lucia Realty and Development Inc. (“SLRDI”) on April 19, 2005 for the development of the Corporation’s real properties with an aggregate area of more or less 23.25 hectares located in Pinmaludpod, Urdaneta, Pangasinan into a residential and/or commercial subdivision.

The MOA on Property Development executed on April 19, 2005 by Omico (as Landowner) with SLRDI (as Developer) provided for the development by SLRDI of the real properties of Omico with an aggregate area of more or less 23.25 hectares located in Pinmaludpod, Urdaneta, Pangasinan into a residential and/or commercial subdivision. As provided in the MOA for the development by SLRDI of the real properties of Omico, SLRDI shall be entitled to 55% of the developed saleable lots while the remaining 45% shall be retained by and remain with Omico. The other provisions in the MOA, include, among others, that expenses for the transfer of titles to SLRDI, as Developer, shall be for its account, including capital gains tax, documentary stamps, and VAT, if any. The saleable area pertaining to the parties shall be distributed by alternating two (2) or three (3) lots until the agreed distribution ratio of 55%/45% shall be achieved. In the aforementioned distribution, the percentages shall apply to the areas in square meters of the said developed saleable lots and not to the mere numbers of such lots. The “developed saleable lots” is understood to mean all lots remaining after deducting thirty percent (30%), more or less, from the total land area to be devoted to roads and open spaces as required by law. SLRDI, as the Developer, shall endeavor to maximize the saleable area to close to seventy percent (70%) of the project area.

Upon mutual agreement, Omico and SLRDI decided to rescind the originally executed MOA and hereby agreed to revoke, rescind, and declare of no force and effect the above-mentioned MOA with respect to the afore-mentioned properties of Omico. The rescission of the MOA shall take effect and to be enforced when duly executed. The decision made by both parties is to focus on their skills and resources on their respective real estate projects. With regards to Omico, it will be an opportune time to enhance Omico’s capability to develop its real properties on its own, increase its revenues and maximize investor return.

The development of Omico’s real properties is expected to be sourced from its cash reserves and internally-generated funds from the sale of housing units in Omico’s Sta. Rosa Homes Project which is located in Sta. Rosa, Nueva Ecija.

The carrying amount of property contributed, which pertains to the parcel of land, amounted to P78,969,783 as of December 31, 2022 and 2021.

The Parent Company engaged the services of a consultant to process the Parent Company’s application for the DAR Land Use Conversion (LUC) for the property. On October 31, 2012, the Department of Agriculture issued the Certificate of Eligibility for Reclassification of Agricultural Lands. On April 16, 2013, the Parent Company filed the application for DAR LUC for 4.68 hectares, the initial area for development, which was approved by DAR on August 22, 2013. The residential subdivision plan/site development plan for the 4.68 hectares, which is the initial area for development, has been prepared consisting of two hundred (200) saleable lots and the Parent Company is now considering the proposed house designs for the single detached and duplex

housing units. In 2017, the Parent Company filed another application for DAR LUC for 17.17 hectares which was approved on April 4, 2019. The DAR required the Parent Company to place a bond amounting to P10,731,250, against any premature conversion activity or development on the subject property. The cash bond is refundable upon issuance of the order of conversion or convertible into performance bond at the Parent Company's option.

The balance of this account as of December 31, 2022 and 2021 amounted to P78,969,783.

Robinsons Land Corporation (RLC)

On December 21, 2006, the Parent Company entered into a Joint Venture (JV) Agreement with Robinsons Land Corporation (the developer), whereby the Parent Company contributed three (3) parcels of land located in Tagaytay City, with an approximate land area of 9,372 square meters. Robinsons Land Corporation (formerly Robinsons Homes, Inc.) will develop a high density two-phase residential subdivision, consisting of five (5) 5-storey residential condominium buildings. Under the agreement, the Parent Company and the Developer shall share in the development of Phase I, consisting of 2 Medium Rise Buildings with a land area of 2,606 square meters. By dividing the saleable floor area of Phase I between them, the Parent Company will be entitled to a saleable floor area of 464.88 square meters equivalent to 9 units. The development of Phase 2, consisting of 3 Medium Rise Buildings, with a land area of 3,909 square meters shall also be undertaken by the developer.

On May 14, 2009, the Parent Company signed the Addendum to the Joint Venture Agreement with Robinsons Land Corporation for the development of Phase 2 and the Parent Company will be entitled to a saleable floor area of 800 square meters which is equivalent to 16 units.

On March 9, 2018, the Parent Company entered into a Termination Agreement of the Joint Venture Agreement wherein Robinsons Land Corporation will turn-over three (3) unsold condominium units, out of the twenty-five (25) units assigned to the Parent Company and shall continue to manage the six (6) remaining condominium units enrolled under the Lease-to-Own Program of Robinsons Land Corporation. On March 16, 2018, the Parent Company entered into a Memorandum Agreement with Robinsons Land Corporation for compensation for the excess developed area in the JV project wherein Robinsons Land Corporation will assign to the Parent Company Parking Slot No. 14 in Building C and waive payment of prior years' real property taxes amounting to P96,128.

The above arrangements were accounted as "Joint Operation" in accordance with PFRS 11, *Joint Arrangements*.

28. OTHER MATTERS

Commitment and contingencies

The following are the significant commitments and contingencies involving the Group.

- a. The Parent Company filed an appeal with the Office of the Secretary of the Department of Agrarian Reform (DAR) on October 15, 2002 for the reversal of a Resolution promulgated by the Regional Director of the Department of Agrarian Reform, Cordillera Administrative Region, reversing an earlier Order granting the application of the Parent Company for exemption of its landholdings in Banangan, Sablan, Benguet from the coverage of the Comprehensive Agrarian Reform Program (CARP). This landholding is included as part of Investment Properties in the consolidated statements of financial position. On August 22, 2012, DAR issued an Order granting Omico's appeal for exemption from CARP coverage, pursuant to Section 10 of R.A. 6657, of Omico's lot property situated at Banangan, Sablan, Benguet consisting of 6.6217 hectares. On July 13, 2016, a Certificate of Finality of the DAR Order dated August 22, 2012 was issued by the DAR - Bureau of Agrarian Legal Assistance Office.
- b. The Group is either a defendant or plaintiff in lawsuits and legal actions arising from its various business activities. Management believes that the claims against the Group are either without merit or that the ultimate liability, if any, resulting from lawsuits and legal actions will not materially affect the Group's consolidated financial statements.

Reclassification

Certain accounts in 2021 and 2020 consolidated financial statements were reclassified to conform with the presentation of 2022 consolidated financial statements. The reclassification did not have significant impact on the consolidated financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS
First Quarter 2023

1. Corporate Information

Omico Corporation (the Parent Company or the Company or Omico) was incorporated in the Philippines and was registered with the Securities and Exchange Commission (SEC) on August 30, 1968. Its corporate term was extended to another fifty (50) years from and after the date of expiration of its first fifty (50)-year term on August 29, 2018, as per SEC Certificate of Filing of Amended Articles of Incorporation dated October 21, 2015. The Company listed its shares of stock in the Philippine Stock Exchange (PSE) on May 2, 1969. Omico Corporation has no ultimate parent company. It holds 100% interest both in Omico Kapital Corporation, a subsidiary which ceased operations in 1997, and Omico Mining Inc. (*formerly Omico-Ivanhoe Mining Inc*) which has no operations.

The Company's main business activities are mining and real property development. It is authorized under its articles of incorporation to operate, prospect, mine, and deal with all kinds of ores, metals and minerals and various other kinds of businesses. It is presently mainly engaged in the business of the development of real property on its own or in joint venture with other real property developers.

The mining exploration segment is now mainly inactive with only a minor investment in Macawiwili Gold Mining and Development Co. Inc. while the property development segment is engaged in the marketing and sale of real estate and evaluation of future development of other real estate properties.

The principal office of the Company is located at Suite 1109 East Tower, Tektite Towers (Formerly: PSE Centre), Exchange Road, Ortigas Center, Pasig City.

2. Basis of Preparation, Presentation and Consolidation

Statement of Compliance

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles as set forth in Philippine Financial Reporting Standards (PFRS), Philippine Accounting Standards (PAS) and Philippine Interpretations from International Financial Reporting Interpretations Committee (IFRIC) issued by the Philippine Financial Reporting Standards Council and adopted by the SEC, including SEC pronouncements.

Basis of Financial Statements Preparation and Presentation

The consolidated financial statements have been prepared under the historical cost method except for:

- Financial instruments measured at amortized cost;
- Financial instruments which are valued at fair value; and
- Inventories at lower of cost and net realizable value (NRV)

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The consolidated financial statements are presented in Philippine Peso and all values represent absolute amounts except when otherwise indicated.

The preparation of consolidated financial statements in conformity with PFRS requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Company's accounting policies. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances.

Principle of Consolidation

The consolidated statements of financial position, statements of comprehensive income, statements of changes in equity and cash flows comprise the accounts of Omico Corporation (Omico), the parent company and its wholly owned subsidiaries, Omico Kapital Corporation (Omico Kapital) and Omico Mining, Inc. (formerly Omico-Ivanhoe Mining Inc.), after elimination of material intercompany transactions.

The financial statements of the subsidiaries are prepared for the same reporting period as the Parent company, using consistent accounting policies.

3. Summary of Significant Accounting Policies and Disclosures

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Current versus non-current classification

The Company presents assets and liabilities in the consolidated statements of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading; ·
- Expected to be realized within twelve months after the end of the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the end of the reporting period.

The Company classifies all other assets as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the end of the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the end of the reporting period.

The Company classifies all other liabilities as non-current.

Financial Instruments

Date of Recognition

Financial assets and financial liabilities are recognized in the consolidated statements of financial position of the Company when it becomes a party to the contractual provisions of the instrument.

Initial Recognition

All financial assets and financial liabilities are initially recognized at fair value. Except for financial assets and financial liabilities at FVPL, the initial measurement of these financial instruments includes transaction costs.

Determination of Fair Value

The fair value for instruments traded in active market at the reporting date is based on their quoted market price. For all other financial instruments not listed in an active market, the fair value is determined by using appropriate techniques or comparison to similar instruments for which market observable prices exists.

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instruments or based on a valuation technique, the Company

recognizes the difference between the transaction price and fair value in the statement of comprehensive income unless it qualifies for recognition as some other type of asset.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the consolidated statements of financial position.

Classification and Measurement of Financial Assets

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. Except for financial assets at FVPL, all financial assets are initially measured at fair value plus transaction costs. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under PFRS 15.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

- Financial Assets at Amortized Cost

The Company measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized or impaired.

The Company's financial assets at amortized cost includes cash and cash equivalents and receivables.

- Financial Assets at Fair Value through Other Comprehensive Income (FVOCI)

Equity instruments

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under *PAS 32 Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Subsequent to initial recognition, financial assets at FVOCI are carried at fair value. Gains and losses on these financial assets are never recycled to profit or loss. However, the Company may transfer the cumulative gain or loss within equity. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVOCI are not subject to impairment assessment.

Included in this category are the Company's investments in club shares.

Debt instruments

A debt financial asset is measured at FVOCI if both of the following conditions are met:

- The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These financial assets are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at fair value. Gains and losses arising from changes in fair value are included in other comprehensive income within a separate component of equity. Impairment losses or reversals, interest income and foreign exchange gains and losses are recognized in profit and loss until the financial asset is derecognized. Upon derecognition, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss. This reflects the gain or loss that would have been recognized in profit or loss upon derecognition if the financial asset had been measured at amortized cost. Impairment is measured based on the expected credit loss (ECL) model.

As of March 31, 2023 and December 31, 2022, the Company does not have debt instruments at FVOCI.

- Financial Assets at Fair Value through Profit or Loss (FVPL)

Financial assets at FVPL include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at FVOCI, as described above, debt instruments may be designated at FVPL on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at FVPL are subsequently carried in the consolidated statement of financial position at fair value with net changes in fair value recognized in the consolidated statement of profit or loss. Dividends are also recognized as other income in the consolidated statement of profit or loss when the right of payment has been established.

As of March 31, 2023 and December 31, 2022, included in this category are the Company's equity investments listed in the Philippine Stock Exchange.

Classification and Measurement of Financial Liabilities

Financial liabilities are measured at amortized cost, except for the following:

- (i) Financial liabilities measured at fair value through profit or loss;
- (ii) Financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the Company retains continuing involvement;
- (iii) Financial guarantee contracts;
- (iv) Commitments to provide a loan at a below-market interest rate; and
- (v) Contingent consideration recognized by an acquirer in accordance with PFRS 3.

A financial liability may be designated at fair value through profit or loss if it eliminates or significantly reduces a measurement or recognition inconsistency (an accounting mismatch) or:

- (i) If a host contract contains one or more embedded derivatives; or
- (ii) If a group of financial liabilities or financial assets and liabilities is managed and its performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Where a financial liability is designated at fair value through profit or loss, the movement in fair value attributable to changes in the Company's own credit quality is calculated by determining the changes in credit spreads above observable market interest rates and is presented separately in other comprehensive income.

As of March 31, 2023 and December 31, 2022, included in this category are the Company's accounts payable and accrued expenses.

Reclassification of Financial Assets

The Company can only reclassify financial assets if the objective of its business model for managing those financial assets changes. Accordingly, the Company is required to reclassify financial assets:

- (i) from amortized cost to FVPL, if the objective of the business model changes so that the amortized cost criteria are no longer met; and,
- (ii) from FVPL to amortized cost, if the objective of the business model changes so that the amortized cost criteria start to be met and the characteristic of the instrument's contractual cash flows meet the amortized cost criteria.

A change in the objective of the Company's business model will be effected only at the beginning of the next reporting period following the change in the business model.

Impairment of Financial Assets

The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms. ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL). For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established probability of default rates for third party trade receivables based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The Company applies the historical credit loss method in case undue cost or effort is involved in calculating the ECL by considering the forward-looking factors. For inter-group trade receivables, the Company has established probability of default rates based on internal credit rating of the customers. Internal credit ratings are based on methodologies adopted by independent credit rating agencies. Therefore, the internal ratings already consider forward looking information.

The Company considers a financial asset to be in default when contractual payments are 180 days past due. However, the Company considers internal or external information when there are indicators that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Derecognition of Financial Instruments

Financial Assets

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized where:

- the rights to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party.

- the Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred the control of the asset.

Where the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Financial Liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in profit or loss.

Cash and Cash Equivalents

Cash and cash equivalents are defined as cash on hand, demand deposits and short-term, highly liquid investments readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value. Cash and cash equivalents are initially and subsequently measured at fair value.

Real Estate for Sale

Real estate for sale is carried at the lower of cost and net realizable value. Cost includes the value of land plus expenditures necessary to complete the housing units (materials and labor cost). Net realizable value is the estimated selling price in the ordinary course of business less cost to complete and sell the units. As at March 31, 2023 and December 31, 2022, real estate inventories are carried at cost.

Prepayments and Other Current Assets

Prepayments and other current assets consist of input taxes, prepaid expenses and deposits. They are carried at cost less the amortized portion.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and any impairment in value. The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, improvements and renewals are capitalized; expenditures for repairs and maintenance are charged to expense as incurred. When assets are sold, retired or otherwise disposed of, their cost and related accumulated depreciation and impairment losses are removed from the accounts and any resulting gain or loss is reflected in income for the period.

Depreciation or amortization of an item of property and equipment begins when it becomes available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is computed using the straight-line method over the stipulated useful lives of the assets as follows:

	Estimated useful life
Condominium units and improvements	15-25 years
Mining and other equipment	3-5 years
Office furniture, fixtures and equipment	3-5 years
Transportation equipment	3-5 years

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values and estimated useful lives of property and equipment are reviewed, and adjusted if appropriate, at each reporting period.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the statement of comprehensive income in the year the item is derecognized.

Investment Properties

Investment properties consist of parcels of land that are held for future development or capital appreciation or both and that is not occupied by the Company.

Investment properties are derecognized when either they have been disposed of, or when the investment property is permanently withdrawn from service and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of comprehensive income in the year of retirement or disposal.

Transfers are made to and from investment property when, and only when there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer is recorded using the carrying amount of the investment property at the date of change in use.

Impairment of Non-Financial Assets

The carrying values of investments in subsidiaries and joint ventures, property and equipment and investment properties are reviewed for impairment when events or changes in circumstances indicate that their carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash generating units are written down to their recoverable amount. The recoverable amount of property and equipment, investment properties and mine exploration and evaluation cost is the greater of net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the statements of comprehensive income.

If there is any indication at end of the reporting period that an impairment loss recognized for an asset in prior years may no longer exist or may have decreased, the Parent Company estimates the recoverable amount of that asset and the carrying amount of the asset is adjusted to the recoverable amount resulting in the reversal of the impairment loss.

Equity

Share capital is determined at the par value of shares that have been issued.

Additional paid-in capital includes any premiums received on the initial issuance of capital stock. Any transaction costs associated with the issuance of shares are deducted from additional paid-in capital, net of any related income tax benefits.

Fair value gain/loss on available for sale financial assets pertains to mark-to-market valuation of available-for-sale financial assets.

Deficit includes all current and prior period results of operations as disclosed in the statements of comprehensive income.

Earnings Per Share

Basic earnings per share is computed by dividing profit for the period by the weighted average number of shares issued and outstanding during the year.

Diluted EPS is computed by dividing the profit for the period by the weighted average number of shares issued and outstanding during the year plus the weighted average number of shares that would be issued on the conversion of dilutive potential shares.

Related Party Transactions

Parties are considered related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. The related party transactions are recognized based on transfer of resources or obligations between related parties, regardless whether a price is charged.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Parent company and its subsidiaries and the revenue can be reliably measured. The following specific recognition criteria must be met before revenue is recognized:

- Real estate – Revenue from sales of lots, completed house and lot and condominium units is accounted under the full accrual method. The percentage of completion method is used to recognize revenue where the Parent Company have material obligation under the sales contract to complete the project after the property is sold. Under this method, revenue is recognized as the related obligations are fulfilled, measured principally on the basis of the estimated completion of a physical proportion of the contract work.

Any excess of progress of work over the right to an amount of consideration that is unconditional, is recognized as installment contract receivables.

Any excess of collections over recognized receivables are included in the “Customers’ advances and deposits” account.

Revenue from lease contract with option to purchase is accounted for as leasing income until the criteria under full accrual method of recording sale is met.

Penalties are recognized as income when cash is received and forfeitures from cancelled sales and reservation fees are recognized as income when the cancellation of sales and reservation fees of buyers has been determined and established.

- Investment income
Interest income is recognized as the interest accrues (taking into account the effective yield on the asset).

Dividend income is recognized when the shareholders’ right to receive the payment is established.

Fair value gain (loss) represents all gain and losses for changes in fair values of financial assets at FVPL.

Realized gain (loss) in sale of shares of stock is recognized upon sale.

- Gains

Gains represent other items that meet the definition of income and may, or may not, arise in the course of ordinary activities of the Company. Gains represent increases in economic benefits and have the same nature as revenue. These are recognized as income when cash is realized.

Costs Recognition

- Cost of real estate sales

Cost of real estate sales is recognized consistent with the revenue recognition method applied. Costs of subdivision lots and housing unit and condominium units sold before the completion of the development is determined on the basis of the acquisition cost of the land and its full development costs, which include estimated costs for future development works, as determined by the Group's in-house technical team.

The cost of inventory recognized in profit or loss on disposal is determined with reference to specific costs of the property, allocated to saleable are based on relative size and takes into account the percentage of completion used for revenue recognition purposes.

- Administrative expense

Cost and expenses are recognized in the consolidated statement of comprehensive income when decrease in future economic benefit related to a decrease in an asset or decrease in a liability has arisen that can be measured reliably.

Costs and expenses are recognized in the consolidated statements of comprehensive income:

- (i) On the basis of a direct association between the costs incurred and the earning of specific items of income;
- (ii) On the basis of systematic and rational allocation procedures when economic benefits are expected to arise over several accounting periods and the association can be broadly or indirectly determined; or
- (iii) Immediately when expenditures produce no future economic benefits or when, and to the extent that, future economic benefits do not qualify or cease to qualify, for recognition in the consolidated statement of financial position as an asset.

- Commission expense

The Company recognizes commission expense when services are rendered by agents. Commission expense is recognized upon receipt of certain level of payment from the buyer comprising a substantial portion of the contract price and the capacity to pay and credit worthiness of buyers have been reasonably established for sales of real estate.

Employee Benefits

Retirement Benefit Obligation

Pension benefits are provided to employees based on the amounts required by law, under R.A. 7641.

The Company has not yet established a formal retirement plan; however, it accrues the estimated cost of retirement benefits required by the provisions of RA No. 7641 (Retirement Law). Under RA 7641, the Company is required to provide minimum retirement benefits to qualified employees. The retirement cost accrued includes normal cost and estimated past service cost.

Short-term Employee Benefits

Salaries and wages are recognized in the consolidated statements of comprehensive income when the employees' services have been rendered to the Group.

Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in PFRS 16. This policy is applied to contracts entered into, on or after January 1, 2019.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset of the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case, the right-of-use asset will be depreciated over the useful life of the underlying asset which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments;
- Variable lease payment that depends on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual guarantee; and
- The exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company used a number of practical expedients when applying PFRS 16 to leases previously classified as operating leases under PAS 17. In particular, the Group:

- Did not recognize right-of-use assets and liabilities for leases for which the lease term ends within 12 months from the date of initial application;
- Excluded initial direct costs from the measurement of the right-of-use asset at the date of initial application; and
- Used hindsight when determining the lease term.

Short-term Leases and Leases of Low-value Assets

The Company has elected not to recognize right-of-use assets and lease liabilities for the leases of low-value assets and short-term leases. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a Lessor

Leases where a significant portion of the risks and rewards of ownership over the asset are retained by the lessor, are classified as operating leases. Rental income on operating leases is recognized in profit or loss on a straight-line basis of accounting over the period of the lease.

Income Taxes

Current income tax assets or liabilities comprise those claims from, or obligations to, fiscal authorities relating to the current or prior reporting period, that are uncollected or unpaid at the end of reporting period. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognized as a component of tax expense in the statements of comprehensive income.

Deferred tax is provided, using the balance sheet liability method on temporary differences at the end of reporting period between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes.

Under the balance sheet liability method, with certain exceptions, deferred tax liabilities are recognized for all taxable temporary differences and deferred tax assets are recognized for all deductible temporary differences and the carry forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profit will be available against which the deferred tax asset is to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of reporting period.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Most changes in deferred tax assets or liabilities are recognized as a component of tax expense in the statement of comprehensive income. Only changes in deferred tax assets or liabilities that relate to a change in value of assets or liabilities that is charged directly to equity are charged or credited directly to equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax relate to the same taxable entity and the same taxation authority.

Functional Currency and Foreign Currency Transactions

- *Functional and Presentation Currency*
Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates (the “functional currency”). The financial

statements are presented in Philippine pesos, which is the Parent Company and subsidiaries' functional currency.

- *Transaction and Balances*

The accounting records of the Parent company and subsidiaries are maintained in Philippine pesos. Foreign currency transactions during the year are translated into the functional currency at exchange rates which approximate those prevailing on transaction dates.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of comprehensive income.

Provisions

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events, for example, legal disputes or onerous contracts.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of reporting period, including the risks and uncertainties associated with the present obligation. Any reimbursement expected to be received in the course of settlement of the present obligation is recognized, if virtually certain as a separate asset, not exceeding the amount of the related provision. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. In addition, long-term provisions are discounted to their present values, where time value of money is material.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resources as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements.

Probable inflows of economic benefits that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the financial statements.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

Events after the End of the Reporting Period

The Company identifies subsequent events as events that occurred after the balance sheet date but before the date when the financial statements were authorized for issue. Any subsequent events that provide additional information about the Company's financial position at the balance sheet date are reflected in the financial statements.

Events that are not adjusting events are disclosed in the notes to the financial statements when material.

4. Significant Accounting Judgments and Estimates

The preparation of the consolidated financial statements in conformity with PFRS requires management to make judgments and estimates that affect the amounts reported in the consolidated financial statements. The judgments and estimates used in the consolidated financial statements are based upon

management's evaluation of relevant facts and circumstances as of the date of the consolidated financial statements. Actual results could differ from such estimates. Future events may occur which will cause the judgments and estimates used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the consolidated financial statements as they become reasonably determinable.

5. Fair Value Measurement

The fair value for assets and liabilities traded in active market at the reporting date is based on their quoted market price. For all other assets and liabilities not listed in an active market, the fair value is determined by using appropriate techniques or comparison to similar instruments for which market observable prices exists.

Where the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instruments or based on a valuation technique, the Company recognizes the difference between the transaction price and fair value in the statements of income unless it qualifies for recognition as some other type of asset.

6. Risk Management Objectives and Policies

Risk management framework

The Parent company and its Subsidiary's audit committee are responsible for the over-all effectiveness of risk management system. Furthermore, it is also the committee's purpose to lead the general evaluation and to provide assistance in the continuous improvement of the Company's risk management, control and governance processes.

- (i) Financial reports comply with established internal policies and procedures, pertinent accounting and auditing standards, and other regulatory requirements;
- (ii) Risks are properly identified, evaluated and managed, specifically in the areas of managing credit, market, liquidity, operational, legal and other risks;
- (iii) The BOD is properly assisted in the development of policies that would enhance the risk management.

Market Risk

Market risk is the risk of change in fair value of financial instruments from fluctuation in foreign exchange rates (currency risk), market interest rates (interest rate risk) and market prices (price risk), whether such change in price is caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

i. Foreign Currency Risk

The risk that Company will face with respect to this is the unstable changes in foreign exchange particularly in US dollar. To minimize this risk, the Company maintains a considerable amount of cash and cash equivalents so as not to be affected by the fluctuation of Philippine peso vis-à-vis US dollar.

ii. Interest Rate Risk

As at March 31, 2023 and December 31, 2022, financial instruments subject to variable interest rate risk represents short-term placement with banks.

iii. Price risk

The Parent company and its Subsidiary's price risk exposure at year end relate to financial assets whose rates will fluctuate as a result of changes in market prices, principally, financial assets at fair value through profit or loss and available-for-sale.

Management monitors movements of equity price on a regular basis by assessing the expected changes in the different portfolios due to parallel movements of a 5% increase or decrease in market values.

The equity securities are classified as fair value through profit or loss and available-for-sale. Any increase and a decrease in the market values of stocks would result to an impact on the statements of comprehensive income and equity.

Credit Risk

Generally, the maximum credit risk exposure of financial assets is the carrying amount of the financial assets as shown on the face of the statements of financial position (or in the detailed analysis provided in the notes to the financial statements). Credit risk, therefore, is only disclosed in circumstances where the maximum potential loss differs significantly from the financial asset's carrying amount.

The Company actively monitors its receivables to avoid significant concentrations of credit risk. They set a maximum limit on the amount that each employee can borrow. In addition, receivables from employees are subject to salary deductions.

High grade cash and cash equivalents are short-term placements and working cash fund placed, invested, or deposited in banks belonging to the top banks in the Philippines in terms of resources and profitability.

High grade accounts, other than cash and cash equivalents, are accounts considered to be of high value. The counterparties have a very remote likelihood of default and have consistently exhibited good paying habits.

Standard grade accounts are active accounts with propensity of deteriorating to mid-range age buckets. These accounts are typically not impaired as the counterparties generally respond to credit actions and update their payments accordingly.

Liquidity Risk

Liquidity or funding risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from either the inability to sell financial assets quickly at their fair values; or counterparty failing on repayment of a contractual obligation; or inability to generate cash inflows as anticipated.

Liquidity risk is a risk due to uncertain liquidity. An institution may suffer liquidity problem when its credit rating falls. The Company is also exposed to liquidity risk if markets on which it depends on are subject to loss of liquidity.

The ability of the Company to finance increases in assets and meet obligations as they become due is extremely important to the Company's operations. The Company's policy is to maintain liquidity at all times. This policy aims to honor all cash requirements on an ongoing basis and to avoid raising funds above market rates or through forced sale of assets.

7. Financial Soundness Indicators

The financial soundness indicators of the Company for the comparative periods ended March 31, 2023 and 2022 are as follows:

Annex “G”

Management’s Discussion and Analysis of Financial Condition and Results of Operations As of March 31, 2023

Gross revenues for the period ended March 31, 2023 amounted to PhP7.70Million as compared to PhP4.60Million for the same period in 2022. The Company’s revenues for the period ended March 31, 2023 and 2022 were derived mainly from realized gross profit from the sale of Sta. Rosa Homes housing units and interest income on time deposits/placements with banks. Total expenses amounted to PhP8.00Million and PhP8.07Million for the period ended March 31, 2023 and 2022, respectively, resulting to a net loss of PhP0.30Million and PhP3.47Million for the period ended March 31, 2023 and 2022, respectively.

The Company’s total assets decreased by 0.02% from PhP633.78Million as of December 31, 2022 to PhP633.65Million as of March 31, 2023 while total liabilities increased by 0.62% from PhP26.00Million to PhP26.16Million. Stockholders’ Equity decreased to PhP607.48Million as of March 31, 2023 from PhP607.78Million as of December 31, 2022.

The key performance ratios of the Company for the period ended March 31, 2023 and for the year ended December 31, 2022 are as follows:

Impact of COVID-19 Pandemic on the Business Operations of the Company

The Company takes into consideration the following risks and impact of the COVID-19 pandemic on our business operations:

- Disruption and limitations in business activities due to the effect of COVID-19 on the health and safety of our employees, workers, customers, suppliers, shareholders and other stakeholders and the implementation by the Government of preventive measures to contain and prevent the spread of COVID-19 such as community quarantine and travel restrictions;
- Delay in the implementation of planned development of new projects;
- Decrease in customers' demand for residential housing units due to economic downturn as an impact of COVID-19 outbreak;
- Delay in completion and delivery of residential housing units for our Santa Rosa Homes Project located in Sta. Rosa, Nueva Ecija due to probable supply chain interruptions in case of localized lockdown; and
- Inability to collect from the buyers of Sta. Rosa Homes housing units as they may not be able to timely fulfill their financial obligations due to the impact of COVID-19.

The following measures were implemented to reduce the risks of the COVID-19 pandemic and its impact on the Company's business operations:

- Observance of the guidelines issued by the Department of Health (DOH) regarding infection control and prevention of transmission of COVID-19 such as personal protection and hygiene, social distancing measures, environmental measures and food safety measures;
- Adherence to the Department of Labor and Employment (DOLE) advisories on the guidelines on COVID-19 prevention and control at the workplace and on the supplemental guidelines relative to remedial measures in view of the ongoing outbreak of COVID-19;
- Support of the Government's efforts and measures outlined to contain and control the spread of COVID-19 such as mandatory quarantine for affected areas, travel restrictions, and stringent social distancing measures;
- Determination of adequate construction supplies inventory for a sustained period and diversification of suppliers to mitigate supply chain disruptions;
- Review of the Company's business continuity plans to ensure that it can adequately address the risks associated with COVID-19; and
- Assessment of the Company's liquidity and identification of causes that might significantly impair liquidity.

Different quarantine classifications were imposed nationwide which resulted to disruptions in business and economic activities and their impact on business continue to evolve. Internally, the Company continues to adapt to these including implementation of the following:

- Work-from-home arrangement for certain office and field personnel;
- Online meeting and discussion with client;
- Use of mobile banking and online platforms for certain financial transactions;
- Virtual annual stockholders' meeting and board meetings, subject to SEC Rules and Guidelines;
- Virtual board committee meetings.

Considering the evolving nature of this COVID-19 pandemic, the Company continues to monitor the situation and will take further actions as necessary and appropriate in response to these economic disruptions and other consequences.

The Board of Directors, the Audit Committee and Management of the Company meet regularly to identify key risk areas and performance indicators and monitor these factors with due diligence and to assess and manage risks involved in the businesses of the Company.

Causes for Any Material Changes in the Financial Statements

Financial Position Accounts

Increase in Cash and Cash Equivalents - 4.77%

March 31, 2023	December 31, 2022	Increase/(Decrease)
314,683,849	300,361,359	14,322,490

The net increase in Cash and Cash Equivalents is mainly due to the disposal of certain shares of stocks which are held for trading, proceeds from the sale of Sta. Rosa Homes housing units and interest income on deposits/placements with banks.

Cash accounts with banks generally earn interest at rates based on prevailing bank deposit rates. Short-term placements can be pre-terminated at any time and have average interest rates ranging from 0.10% to 6.25% per annum as of March 31, 2023 and 0.10% to 6.00% December 31, 2022.

Decrease in Financial Assets at Fair Value Through Profit or Loss - 12.84%

March 31, 2023	December 31, 2022	Increase/(Decrease)
64,198,887	73,654,707	(9,455,820)

The decrease in Financial Assets at Fair Value Through Profit or Loss is mainly due the disposal of certain shares of stocks which resulted to a gain of PhP1.35Million. The Company's Financial Assets at Fair Value Through Profit or Loss consist of shares of stocks of publicly listed companies which are classified as held for trading.

Decrease in Receivables – 21.51%

March 31, 2023	December 31, 2022	Increase/(Decrease)
26,935,759	34,317,962	(7,382,203)

The decrease in Receivables is due mainly to the collection of the receivable from a stockbroker amounting to PhP4.10Million for Omico selling transaction value dated December 29, 2022 with due date for collection of January 5, 2023 and decrease in instalment contract receivables on the sale of Sta. Rosa Homes housing units.

Increase in Real Estate for Sale – 14.95%

March 31, 2023	December 31, 2022	Increase/(Decrease)
16,577,107	14,421,256	2,155,851

The increase in Real Estate for Sale is due to the capitalized property development costs related to the development and construction of the Sta. Rosa Homes project.

Real estate for sale of Sta. Rosa Homes' project, which is carried at cost, principally pertains to cost of raw land and property development and other expenses related to development and construction of the subdivision housing units. The cost of raw land includes its acquisition cost and expenses incurred to effect the transfer of title of the property to the Company. Development costs include the cost of construction, rehabilitation and other related costs.

Increase in Prepayments and Other Current Assets – 10.03%

March 31, 2023	December 31, 2022	Increase/(Decrease)
3,818,517	3,470,283	348,234

The increase in Prepayments and Other Current Assets is mainly due to the increase in input value added tax and prepaid taxes.

Prepayments and Other Current Assets is composed of input value added tax, prepaid taxes, deposits and others. Input tax represents the 12% value added tax (VAT) on purchases of goods and services. Prepaid taxes consist of creditable withholding taxes at source.

Decrease in Property and Equipment – Net - 4.44%

March 31, 2023	December 31, 2022	Increase/(Decrease)
2,671,752	2,795,917	(124,165)

The decrease in Property and Equipment is mainly due to the provision for depreciation for the period.

Seasonal Aspects

There are no known seasonal aspects that will have material effect on the Company's financial condition or results of operations.

STATUS AND PLAN OF OPERATION

The Company's main business activities are mining exploration and property development. The Company is licensed to operate, prospect, mine, and deal with all kinds of ores, metals and minerals. The Company is also engaged in the business of real estate development.

The mining exploration segment was previously engaged in the exploration activities of mine site while the property development segment is presently engaged in the marketing and sale of real estate and evaluation of future development of other real estate properties.

The Company's businesses are organized and managed separately according to the nature of products provided, with each segment representing a strategic business unit that offers different products and serves different markets. The Company's business is segregated into mining exploration and property development.

MINING EXPLORATION SEGMENT

Omico-Macawiwili Mining Project

The Company previously held a mining agreement with Macawiwili to operate and mine on several claim blocks located within the Baguio Gold District, in the municipality of Itogon, Benguet. The agreement which was signed on September 30, 1968 and extended on January 10, 1996 is effective until January 10, 2021. On August 29, 2012, the Company executed a Termination of Mining Agreement with Macawiwili wherein the Company is relinquishing all its rights and obligations under the mining agreement including the MPSA. With this Agreement, the Company has given the reins in managing the project to Macawiwili but remains an active minority investor in the venture.

Management decided to terminate the mining agreement with Macawiwili because Management would like to focus on other mining prospects/projects.

The Company is still interested in investing in mining and is scouting for other mining projects to explore, manage, operate or invest either solely or in partnership with other entities.

PROPERTY DEVELOPMENT SEGMENT

Ongoing Project – Sta. Rosa Homes, Sta. Rosa, Nueva Ecija

In December 2005, the Company launched the Sta. Rosa Homes project located in Bgy. Lourdes, Sta. Rosa, Nueva Ecija which is a 14.8-hectare residential project. When completed, the housing project will comprise 1,201 housing units with a balanced mix of single detached, single attached, duplex and rowhouse. The project will have complete community facilities which include underground drainage system, water and electrical distribution system, concrete road network, a clubhouse, parks and playgrounds. The Company is presently engaged in the marketing and

selling of the housing units and the financing options available to buyers are Pag-Ibig and In-House financing.

The estimated total development cost of the Sta. Rosa Homes project is PhP395.60Million. As of March 31, 2023, the carrying value of the Sta. Rosa Homes project representing site acquisition cost, housing unit construction, initial land development costs, land use conversion expenses, permits and licenses, net of housing units sold, amounted to PhP13.73Million. With the proceeds from the stock rights offering, the Company allocated PhP110.32Million for site preparation, road construction, drainage and power distribution system, house construction, project overhead, taxes and licenses. The balance for the completion of the development of the Sta. Rosa Homes project is expected to be sourced from internally-generated funds on the sale of the housing units and from credit facility with banks. The total sale from the Sta. Rosa Homes project when completed is estimated at PhP594Million.

As of March 31, 2023, the Company sold or received reservation payments for 1,175 units, 701 units through Pag-Ibig housing scheme and 474 units through in-house financing. The total sales contract amount of the 1,175 units is PhP626.04Million. As of March 31, 2023, total collections on the sale of housing units amounted to PhP558.40Million including HDMF loan takeout proceeds amounting to PhP324.12Million.

The Home Development Mutual Fund (commonly known as Pag-Ibig Fund) approved an initial budget allocation/funding commitment line of PhP12.42Million for the year 2023 for the Company as an accredited developer in the Expanded Housing Loan Program of the Pag-IBIG Fund. On April 24, 2006, the Company was granted by the Board of Investments (BOI) a certificate of registration as a "New Developer of Mass Housing Project" for the Company's Sta. Rosa Homes project. As registrant, the Company is entitled to Income Tax Holiday (ITH) for a period of four (4) years from June 2006. The ITH expired in May 2010.

Joint Venture Project – Tagaytay City Property

On December 21, 2006, the Company entered into a Joint Venture Agreement with Robinsons Land Corporation ("RLC"), as the Developer, whereby the Company contributed three (3) parcels of land located in Tagaytay City with approximate land area of 9,372 square meters. RLC will develop a high density two-phase residential subdivision, consisting of five (5) 5-storey residential condominium buildings. Under the agreement, the Company and the Developer shall share in the development of Phase 1, consisting of 2 Medium Rise Buildings with a land area of 2,606 square meters, by dividing the saleable floor area of the Phase 1 between them, hence, the Company will be entitled to a saleable floor area of 485.04 square meters equivalent to 9 units. The development of Phase 2, consisting of 3 Medium Rise Buildings with a land area of 4,028 square meters, shall also be undertaken by the Developer.

On May 14, 2009, the Company signed the Addendum to the Joint Venture Agreement with RLC for the development of Phase 2. The Company will be entitled to a saleable floor area of 801.19 square meters which is equivalent to 16 units.

The residential project, which is located at the corner of Mahogany Avenue and Mayor's Drive, is named The Wellington Courtyard ("TWC"). As per RLC's development plan, the project has a country-inspired courtyard community with amenities like a main swimming pool, a reflecting pool and wading pool, and a multipurpose open court sprawled at the center for sports and special events. Each of the five (5) buildings has a western style design. As of December 31, 2019, RLC has already accomplished 100% of the construction of Building A and B of Phase 1, Building C, D and E of Phase 2 and site development and amenities.

The carrying values of the property contributed, which pertains to parcels of land net of the cost of condominium units sold, amounted to PhP2.84Million as of March 31, 2023. The Company expects to generate PhP85.43Million from the sale of the Company's share of condominium units in Phase 1 (9 units) and Phase 2 (16 units). The development of Phase 3 or the commercial strip, which will be located in front of the residential project, shall be undertaken by the Company. RLC will have no share in Phase 3.

As of March 31, 2023, twenty four (24) condominium units out of the total allocation of twenty five (25) units have already been sold under RLC's regular financing or lease-to-own program with a total selling price of PhP82.40Million of which PhP77.05Million were collected and remitted by RLC to the Company. Management has initiated some marketing effort, in coordination with RLC, to promote and augment the sale of the Company's assigned condominium units.

RLC has officially announced that all unsold units, except the model unit, in TWC may now be offered under the Straight Lease-to-Own program to promote and augment the sale of the TWC condominium units. It is essentially a lease-to-own payment scheme wherein 100% of the Total Contract Price will be payable in equal monthly payments for as long as 120 months (10 years), at 0% interest. Since this is a lease-to-own scheme, ownership of the unit will not transfer to the lessee-buyer unless the unit has been fully paid. RLC is also working on strategic plans and TWC is one of RLC's core/priority projects for sell-out considering that it is already a completed project.

On March 9, 2018, the Company entered into a Termination Agreement of the Joint Venture Agreement wherein RLC shall continue to manage the six (6) remaining condominium units enrolled under the Lease-to-Own Program of RLC. On March 16, 2018, the Company entered into a Memorandum Agreement with RLC for compensation for the excess developed area in the JV project wherein RLC will assign to the Company Parking Slot No. 14 in Building C of the TWC and waive payment of prior years' real property taxes amounting to PhP96,128.26.

Joint Venture Project – Urdaneta Property, Pangasinan

On August 30, 2022, Omico Corporation has executed a Rescission of the Memorandum of Agreement (MOA) on Property Development executed by Omico with Sta. Lucia Realty and Development Inc. ("SLRDI") on April 19, 2005 for the development of the Corporation's real properties with an aggregate area of more or less 23.25 hectares located in Pinmaludpod, Urdaneta, Pangasinan into a residential and/or commercial subdivision.

The MOA on Property Development executed on April 19, 2005 by Omico (as Landowner) with SLRDI (as Developer) provided for the development by SLRDI of the real properties of Omico with an aggregate area of more or less 23.25 hectares located in Pinmaludpod, Urdaneta, Pangasinan into a residential and/or commercial subdivision. As provided in the MOA for the development by SLRDI of the real properties of Omico, SLRDI shall be entitled to 55% of the developed saleable lots while the remaining 45% shall be retained by and remain with Omico. The other provisions in the MOA, include, among others, that expenses for the transfer of titles to SLRDI, as Developer, shall be for its account, including capital gains tax, documentary stamps, and VAT, if any. The saleable area pertaining to the parties shall be distributed by alternating two (2) or three (3) lots until the agreed distribution ratio of 55%/45% shall be achieved. In the aforementioned distribution, the percentages shall apply to the areas in square meters of the said developed saleable lots and not to the mere numbers of such lots. The "developed saleable lots" is understood to mean all lots remaining after deducting thirty percent (30%), more or less, from the total land area to be devoted to roads and open spaces as required by law. SLRDI, as the Developer, shall endeavor to maximize the saleable area to close to seventy percent (70%) of the project area.

Upon mutual agreement, Omico and SLRDI decided to rescind the originally executed MOA and hereby agreed to revoke, rescind, and declare of no force and effect the above-mentioned MOA with respect to the afore-mentioned properties of Omico. The rescission of the MOA shall take effect and to be enforced when duly executed. The decision made by both parties is to focus on their skills and resources on their respective real estate projects. With regards to Omico, it will be an opportune time to enhance Omico's capability to develop its real properties on its own, increase its revenues and maximize investor return.

The development of Omico's real properties is expected to be sourced from its cash reserves and internally-generated funds from the sale of housing units in Omico's Sta. Rosa Homes Project which is located in Sta. Rosa, Nueva Ecija.

The carrying amount of property contributed, which pertains to the parcel of land, amounted to PhP78.97Million as of March 31, 2023 and December 31, 2022.

On April 16, 2013, the Company filed the application for DAR Land Use Conversion (“DAR LUC”) for 4.68hectares which was approved by DAR on August 22, 2013 as per DARRO Conversion Order No. 08-2013-238. On May 17, 2017, the Company filed the application for DAR LUC from agricultural to residential use for 17.17hectares and on September 22, 2017, DAR conducted an on-site inspection and verification of the additional area being applied for land use conversion. DAR required the Company to place a bond amounting to PhP10,731,250, against any premature conversion activity or development on the subject property. The cash bond is refundable upon issuance of the order of conversion or convertible into performance bond at the Company’s option. On April 04, 2019, DAR issued DARCO Order No. CON-1904-1372 Series of 2019 for the Company’s application for DAR LUC from agricultural to residential use for the twelve (12) parcels of land with an aggregate area of 17.17hectares located in Barangay Pinmaludpod, Urdaneta City, Pangasinan. The Company has already submitted a request to DAR for the conversion of the Cash Bond of PhP10,731,250 into a Performance Bond.

Proposed Project – Baguio Homes, Bgy. Banangan, Sablan, Benguet

The Company is considering the development of one (1) of the two (2) investment properties located in Bgy, Banangan, Municipality of Sablan, Province of Benguet. The project will be called Baguio Homes and has an area of 6.6217 hectares located on the slopes of mountainside terrain with the majestic view of the Cordilleras. The average sloping terrain is about 18% making the area ideal for a housing project. The project is designed to cater to the low-cost housing needs of Metro Baguio. When completed, it will comprise a neighborhood of one hundred sixty (160) units of socialized houses and two hundred fifty three (253) units of single attached houses. The land had already been converted in the local level from agricultural to residential use.

The project will have complete community facilities which include concrete road network, underground and open canal drainage system, water and electrical distribution system, a clubhouse, parks and playgrounds. As of March 31, 2023, the Company had already infused in the Baguio Homes project a total amount of PhP16.37Million for land acquisition, maintenance, permits and licenses.

Other Investment Properties

Pasong Tamo, Makati Property

The Company is the registered owner of two (2) parcels of land located at the corner of Pasong Tamo Extension and EDSA, Makati City, evidenced by TCT Nos. 206902 and 203760 of the Registry of Deeds for Makati City. These properties were sold by the Guevent Investments and Development Corporation (GIDC) and Honeycomb Builders Inc. (HBI) to the Company. These two properties were separated by a property owned by GIDC and HBI situated between them, indicating an intent by the parties to have these parcels of land developed together with the properties of GIDC and HBI. The parties thus entered into a Joint Venture Agreement (“JVA”) in 1995 for the purpose. However, events that were not foreseen and beyond the control of the Company, including the 1997 Asian Financial Crisis, prevented the implementation of the JVA. This resulted in disputes between the parties to the JVA. GIDC threatened a civil suit demanding damages in the hundreds of millions. However, the company resisted the demand and threat and instead started negotiations for amicable settlement with GIDC. Thereafter, GIDC and HBI rescinded the JVA in 2008 and said rescission led to the filing of criminal cases against officers of the Company. However, negotiations for settlement continued between the parties. After several negotiations variously conducted spanning over a decade, the parties have come to an agreement that they must end their long-drawn dispute amicably and withdraw all cases that have been filed or initiated by GIDC and HBI against the officers of the Company. As a necessary consequence of the desire of the parties to settle their differences, the Company has agreed to sell back the subject properties upon terms mutually acceptable to both parties.

On June 10, 2017, the Company entered into a Memorandum of Agreement (MOA) and a Deed of Absolute Sale each for each of the two parcels of land, with GIDC and HBI for the sell back of the Company's two (2) parcels of land located at the corner of Pasong Tamo Extension and EDSA, Makati City, with TCT Nos. 203760 and 206902 of the Registry of Deeds of Makati City in favor GIDC and HBI for PhP177.0Million wherein the first tranche of PhP88.50Million was received in June 2017 and second tranche of PhP88.50Million in July 2017. The Company recognized a gain of PhP37.20Million from the sale transaction. The sell back is the culmination of years of negotiations to settle the disputes over the Joint Venture Agreement to develop the properties, among the parties, and free the investment of Omico Corporation for other projects.
